Part III–SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes: *Provided,* That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further,* That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor–

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now or hereafter owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now or hereafter owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity.

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

d. Agrees that it will terminate any other exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Federal Airport Act.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the airport, the Sponsor will insert and enforce provisions requiring the contractor;

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; *Provided,* That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided,* That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further,* That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.27, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the convenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS ADMINISTERED BY THE FEDERAL AVIATION ADMINISTRATION

Sponsor Assurances to accompany the Project Application dated April 19, 1972 for a grant of funds for the development of the Chicago - O'Hare International Airport, Chicago, Illinois, under Project No. 8-17-0022-03.

In order to furnish the assurances required by Title VI of the Civil Rights Act of 1964, and by Part 21 of the Regulations of the Office of the Secretary of Transportation, the City of Chicago, (hereinafter called the "Sponsor") hereby covenants and agrees with the United States (hereinafter called the "Government") as follows:

> "The Sponsor in the operation and use of the airport will not on the grounds of race, color, or national origin, discriminate or permit discrimination against any person or group of persons in any manner prohibited by Part 21 of the Regulations of the Office of the Secretary of Transportation."

The Sponsor will also include, or require the inclusion, in every agreement or concession pursuant to which any person, other than the Sponsor, operates or has the right to operate any facility on the Airport providing services to the public, the foregoing covenant as an obligation assumed by that person, together with a provision granting the Sponsor the right to take such action as the Government may direct to enforce that covenant.

Noncompliance with the above assurances shall constitute a material breach, and in the event of such noncompliance, the Government may take appropriate action to enforce compliance, may terminate the Grant Agreement to which the covenant relates, or seek judicial enforcement.

The covenant shall become effective upon execution and shall constitute part of the Grant Agreement to which it relates and shall remain in full force and effect so long as the airport covered by such agreement continues to be used and operated as a public airport.

Part IV–PROJECT AGREEMENT

If the Project or any portion thereof is approved by the FAA, and an offer of Federal aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the FAA, and the Grant Agreement with respect to the Project.

Whereas, The economic health and strength of the City is largely dependent upon the ease of accessibility to and mobility of movement within the Central Business Area. Additional expansion of vehicular traffic within the area must be discouraged so that congestion, delay and pollution do not erode the vitality of the area; and

Whereas, The Report of the Citizen's Parking Advisory Committee has recently outlined suggestions for encouraging and stimulating broad utilization of mass transportation alternatives by those commuting to and working in the Central Business Area and has further counseled affirmative action to discourage vehicular traffic; and

Whereas, The high level of business and commercial redevelopment of land within the Central Business Area together with the attendant off-street parking requirements for such development, has served to induce expanded utilization of vehicular traffic to the detriment of both the mobility within the area and the mass transportation alternatives serving the area; and

Whereas, It is in the public interest to limit the availability of parking within the Central Business Area and affirmatively encourage the active support and utilization of mass transportation alternatives; now, therefore,

Be It Ordained by the City Council of the City of Chicago:

Without benefit of the telescope, which he preceded by an entire century, and without the use of photography, which was not developed until 400 years after his death, Nicholas Copernicus conceived and proved that the earth and other planets revolve around the sun and that the theory of the earth's position as the center of this system, held to be true up to Copernicus' time, was definitely wrong; and

>
> WHEREAS, Nicholas Copernicus reached adulthood at the time of the emergence from the so called "Dark Ages" and the development of the great Rennaissance in Italy. >
> WHEREAS, Copernicus undertook most of his studious accomplishments in the atmosphere of a world which had changed from flat to round, a world in which aesthetic values of art and beauty reigned supreme, a world in which science and other fields gained from revolutionary new thoughts and ideas, a world which saw the advent of the printed page to immortalize these new ideas; and
>
> WHEREAS, Copernicus eventually concentrated all his thoughts and efforts on the design of our universe, and gathered data to support his revolutionary theory into a book which has become one of the most famous and far-reaching books ever printed: *Concerning the Revolutions of the Heavenly Spheres;* and
>
> WHEREAS, Copernicus' book eventually revolutionized the world of science and formed a basis for all scientific thought during the ensuing four centuries, so that Nicholas Copernicus has justifiably received world recognition as "The Father of Modern Science"; and
>

May 17, 1972 Declared Astronauts Young, Duke and Mattingly Day in Chicago.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council presented the following proposed resolution:

WHEREAS, On Sunday, April 16, 1972, Astronauts John W. Young, Charles M. Duke, Jr., and Thomas K. Mattingly, II, successfully undertook the Apollo 16 Mission to the Moon; and

WHEREAS, Command Ship "Casper" with lunar module "Orion" attached, began its journey to the moon, with a successful take-off right on schedule at 11:54 a.m., Central Standard Time, Sunday, April 16, 1972. On its way to the moon, Apollo 16 suffered its share of problems. Once again, as in previous Apollo Missions, the teamwork of the engineers, scientists and technicians on the ground and the Astronauts in space paid off and the problems were solved and the mission proceeded unimpeded to a successful conclusion; and

WHEREAS, Astronauts Young, Duke and Mattingly, through their combined efforts contributed a series of additional accomplishments to the Apollo space program, which included the following: The landing on the moon was the fifth manned lunar landing. Apollo 16, weighing 76,109 pounds, was the largest payload placed in lunar orbit. The 71 hour and 12 minute stay on the moon of lunar module "Orion" and Astronauts Young and Duke, was the longest time for an Apollo spacecraft on the moon. The extra vehicular activity of 20 hours and 14 minutes, was the longest lunar surface EVA to date. Apollo 16 was the first exploration of the lunar highlands. The Astronauts brought back to earth the largest amount of lunar samples, approximately 210 pounds; and

WHEREAS, The Apollo 16 Eleven Day Mission to the Moon and back to earth is eloquent testimony to the genius of man to undertake and succeed in his exploration of space, the impact of which upon the future of the life of man on earth is yet to be measured, and only history will record the true meaning of these explorations; now, therefore,

Be It Resolved, That the Mayor and City Council in meeting assembled this 17th day of May, A.D. 1972, do declare Wednesday, May 17, 1972 to be a day of commemoration of the flight of Apollo 16, and a day to honor Astronauts Young, Duke and Mattingly, and ask all citizens of Chicago and the people of our Great Midwest to join in paying tribute to our heroic space adventurers for their accomplishments, adding yet another successful chapter to annals of courageous men in space; and

Be It Further Resolved, That Wednesday, May 17, 1972 is hereby declared to be Astronauts Young, Duke and Mattingly Day in Chicago, and that the flag of the United States be flown on all public buildings, at all places of business, and from every home in the City of Chicago.

Alderman Keane moved to *Suspend the Rules Temporarily* to permit immediate consideration of and action upon the foregoing proposed resolution. The motion *Prevailed.*

On motion of Alderman Keane (seconded by Aldermen Sperling, Holman, Bilandic and Hedlund) the foregoing proposed resolution was *Adopted,* unanimously.

Alderman Keane stated that he wished that the country could be drawn together as it was during the blast-off and splash-down during the various flights of the Astronauts. He warmly praised the wives and children of the Astronauts for their courage and pride in the accomplishments of such outstanding men. He also pointed out that all mankind would benefit from the results of the explorations in space.

Alderman Sperling stated that he was proud to second the motion to approve the resolution and that Chicago was happy to be host once more on this glorious occasion.

Alderman Holman in his seconding speech said that his hat was off to the pioneers of achievement and that Chicago welcomed the Astronauts with open arms and open hearts for such brave men.

Alderman Hedlund spoke feelingly of how thrilled she had been with the flight, and even more thrilled with their safe return.

Honorable Richard J. Daley, Mayor then addressed the Council stating that he welcomed the Astronauts to Chicago on behalf of all the citizens. He stated that it was always a pleasure to be in a Chicago parade, especially when so many smiling faces were in evidence along the route, all cheering for a great country and a great cause. The Mayor went on to say that he was proud to have the Astronauts in Chicago, proud of the Astronauts' families, and that the Astronauts symbolized the greatness of American manhood.

Medal of Merit Presented to Captain Young.

Honorable Richard J. Daley, Mayor, presented the City of Chicago's Medal of Merit to Captain John W. Young, Commander of the Apollo 16 flight. The Mayor pointed out that Captain Young had previously been presented with honorable citizenship when he had been in Chicago six years before as a member of the Gemini 3 Mission.

Captain Young addressed the Council and expressed his thanks to the Mayor and considered it a great honor to be in Chicago. He noted that there had been many changes since his last visit but that there were just as many friendly people if not more. He told his audience that he wanted them to know that the United States of America is the greatest country on this earth because of people, responsible people who do their job which permitted the astronauts to "stand on their shoulders". He stated that the space program could announce two years in advance what they planned on doing and that they then would go right ahead and accomplish just what had been announced. He stated simply that "we stood on the moon and we want to thank you".

Honorary Citizenship Conferred on Lt. Commander Thomas K. Mattingly and Col. Charles M. Duke.

Honorable Richard J. Daley, Mayor, then conferred honorary citizenship upon Lt. Commander Thomas K. Mattingly II. In making the presentation the Mayor informed the audience that Commander Mattingly had been born in Chicago on March 17.

In accepting the award, Commander Mattingly said that it was indeed gratifying to return to the place of his origin. He too stated that this country was indeed the greatest in the field of technology. He too expressed his appreciation for the reception accorded the Astronauts.

The Mayor then presented Colonel Charles M. Duke who said that he too considered it a great honor to be present as a member of the Apollo 16 Crew. He praised the warmth of the reception accorded his teammates and himself and concluded by thanking everyone.

Presentation of Distinguished Guests.

Honorable Richard J. Daley, Mayor, then presented to the assembled guests Mrs. John Young and Mrs. Charles Duke.

The ladies rose and were greeted warmly by the members of the Council and assembled guests.

The Mayor noted that Mrs. Mattingly was not present due to having recently given birth to a son.

Honorable Richard J. Daley, Mayor, then presented the First Lady of Chicago, "Ma" Daley; and also the First Lady of the City Council, Mrs. Thomas E. Keane.

The First Ladies were extended a warm round of applause.

At this point in the meeting the City Council was recessed by the Mayor to host the visiting Astronauts, their wives, and members of the City Council at a special luncheon in the Sherman House.

CITY OF CHICAGO
DEPARTMENT OF LAW

May 24, 1972.

To the Honorable, The City Council of the City of Chicago:

Re: *City of Chicago, vs.*
William C. Leakas,
Illinois Appellate Court No. 55511

LADIES AND GENTLEMEN—On May 19, 1972 the Illinois Appellate Court, First District, filed an opinion reversing the demolition decree that had been entered by the trial court, which decree resulted in the demolition of Defendant Leakas' building.

The bases of the Appellate Court's decision were that the requirements of due inquiry to locate defendant prior to attempting notice by publication were not satisfied, and that there was no evidence as to the condition of the building that warranted the entry of the decree of demolition.

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

CITY OF CHICAGO
DEPARTMENT OF LAW

May 26, 1972.

To the Honorable, The City Council of the City of Chicago:

Re: *S. Bloom, Inc., et al., vs.*
Marshall Korshak, et al.,
Ill. Sup. Ct. Nos. 44895, 44937 (cons.)

LADIES AND GENTLEMEN—On May 19, 1972 the Illinois Supreme Court filed an opinion in the above-entitled, consolidated causes affirming that part of the trial court's decision which held all but one section of the Chicago Cigarette Tax Ordinance (Chapter 178.1 of the Municipal Code) constitutionally valid and reversing that part of the trial court's decision which held invalid Section 178.1-4 (b) of the Ordinance.

In its total affirmance of the validity of this Tax Ordinance, the Court ruled that the City had the power to enact the tax under the home rule provisions of the 1970 Illinois Constitution and that the Ordinance does not violate any principles of equal protection, due process, or equal taxation and it imposes no impermissible burden on interstate commerce.

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

The following is said ordinance as passed:

WHEREAS, The economic health and strength of the City is largely dependent upon the ease of accessibility to and mobility of movement within the Central Business Area. Additional expansion of vehicular traffic within the area must be discouraged so that congestion, delay and pollution do not erode the vitality of the area; and

WHEREAS, The Report of the Citizen's Parking Advisory Committee has recently outlined suggestions for encouraging and stimulating broad utilization of mass transportation alternatives by those commuting to and working in the Central Business Area and has further counseled affirmative action to discourage vehicular traffic; and

WHEREAS, The high level of business and commercial redevelopment of land within the Central Business Area together with the attendant off-street parking requirements for such development, has served to induce expanded utilization of vehicular traffic to the detriment of both the mobility within the area and the mass transportation alternatives serving the area; and

WHEREAS, It is in the public interest to limit the availability of parking within the Central Business Area and affirmatively encourage the active support and utilization of mass transportation alternatives; now, therefore,

CITY OF CHICAGO
DEPARTMENT OF LAW

June 21, 1972.

To The Honorable The City Council of the City of Chicago:

Re: *City of Chicago v.*
Exchange National Bank, et al.
Illinois Supreme Court
No. 44600

LADIES AND GENTLEMEN—On May 22, 1972, the Illinois Supreme Court handed down an opinion in the case referred to above, affirming a judgment by the Illinois Appellate Court in favor of the City of Chicago. The City of Chicago filed a complaint in the Circuit Court of Cook County seeking issuance of a mandatory injunction directing property owners to make alterations in an apartment building which was constructed in violation of the zoning ordinance and the building permit. The Circuit Court refused to issue the order, stating that the City had not proved it in the public welfare to require such deconversion and further noted that the cost of alterations would be a burden on the property owners.

The City appealed and the Appellate Court reversed the judgment of the Circuit Court, remanding with directions to enter a decree in conformance with the City's complaint. The Supreme Court granted a petition for leave to appeal by the property owners.

In affirming the Appellate Court, the Supreme Court noted that it was not the City's

> "burden to prove that the public welfare required enforcement of the ordinance. It was the defendants' burden to overcome the presumption that enforcement was of benefit to the health, safety and welfare of the public".

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

CITY OF CHICAGO
DEPARTMENT OF LAW

July 3, 1972.

To The Honorable, The City Council of the City of Chicago:

Re: *LaSalle National Bank, as Trustee*
U/T dated October 21, 1968 and known
as Trust No. 38711
vs. City of Chicago
Illinois Appellate Court No. 55839

LADIES AND GENTLEMEN—On June 16, 1972, the Appellate Court for the First District handed down an opinion in the above case reversing an order of the Circuit Court of Cook County which declared the existing zoning ordinance unreasonable insofar as it operated to prohibit the use of plaintiff's property for an automobile service station.

The Appellate Court held that although some other uses are allowed and existing in the area, there is no doubt but that the district involved was a residential district and that the classification (prohibiting gas station uses) bore a substantial relationship to the public health, safety and welfare. The court rejected the plaintiff's contention that the legislative history of the ordinance and the approval by various City departments of the plans and specifications submitted voided the presumption in favor of the validity of the zoning enactment in this case.

Very truly yours,

(Signed) Richard L. Curry,
Corporation Counsel.

This Offer is made on and subject to the following terms and conditions:

1. The maximum obligation of the United States payable under this Offer shall be $ 1,755,334

2. The Sponsor shall:

   (a) begin accomplishment of the Project within ninety days after acceptance of this Offer or such longer time as may be prescribed by the FAA, with failure to do so constituting just cause for termination of the obligations of the United States hereunder by the FAA;

   (b) carry out and complete the Project without undue delay and in accordance with the terms hereof, the Airport and Airway Development Act of 1970, and Sections 152.51-152.63 of the Regulations of the Federal Aviation Administration (14 CFR 152) in effect as of the date of acceptance of this Offer; which Regulations are hereinafter referred to as the "Regulations";

   (c) carry out and complete the Project in accordance with the plans and specifications and property map, incorporated herein, as they may be revised or modified with the approval of the FAA.

3. The allowable costs of the project shall not include any costs determined by the FAA to be ineligible for consideration as to allowability under Section 152.47(b) of the Regulations.

4. Payment of the United States share of the allowable project costs will be made pursuant to and in accordance with the provisions of Sections 152.65-152.71 of the Regulations. Final determination as to the allowability of the costs of the project will be made at the time of the final grant payment pursuant to Section 152.71 of the Regulations: Provided, that, in the event a semi-final grant payment is made pursuant to Section 152.71 of the Regulations, final determination as to the allowability of those costs to which such semi-final payment relates will be made at the time of such semi-final payment.

5. The Sponsor shall operate and maintain the airport as provided in the Project Application incorporated herein and specifically covenants and agrees, in accordance with its Assurance 4 in Part III of said Project Application, that in its operation and the operation of all facilities thereof, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed or national origin in the use of any of the facilities provided for the public on the airport.

6. The FAA reserves the right to amend or withdraw this Offer at any time prior to its acceptance by the Sponsor.

7. This Offer shall expire and the United States shall not be obligated to pay any part of the costs of the Project unless this Offer has been accepted by the Sponsor on or before 28 June 1972 or such subsequent date as may be prescribed in writing by the FAA.

8. The Sponsor hereby agrees that it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with funds obtained from the Federal Government or borrowed on the credit of the Federal Government pursuant to a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any federal program involving such grant, contract, loan insurance, or guarantee the following Equal Opportunity clause.

   During the performance of this contract, the contractor agrees as follows:

   a. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

   b. The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

   c. The contractor shall send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

   d. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

   e. The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

f. In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rules, regulations, or order of the Secretary of Labor, or as otherwise provided by law.

g. The contractor will include the portion of the sentence immediately preceding paragraph a. and the provisions of paragraph a. through g. in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance. Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The Sponsor further agrees that it will be bound by the above Equal Opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, that if the applicant so participating is a State or local government, the above Equal Opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The Sponsor agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor that it will furnish the administering agency with the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The Sponsor further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of 24 September 1965, with a contractor debarred from, or who has not demonstrated eligibility for, government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part III, Subpart D, of the Executive Order. In addition, the Sponsor agrees that if it fails or refused to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee); refrain from extending any further assistance to the Sponsor under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from the Sponsor; or refer the case to the Department of Justice for appropriate legal proceedings.

9. The Sponsor hereby convenants and agrees that its financial records of the project, established, maintained and made available to personnel of the FAA in conformity to Section 151.55 of the Regulations of the Federal Aviation Agency (14 CFR 151) will also be available to representatives of the Comptroller General of the United States.

10. By its acceptance hereof, the Sponsor hereby covenants that to the extent it has or may have either present or future control over each area identified on the Exhibit "A" as "clear zone", and unless exceptions to or deviations from the following obligations have been granted to the Sponsor in writing by the FAA, it will clear said area or areas of any existing structure or any natural growth which constitutes an obstruction to air navigation with the standards established by Section 77.23 as applied to Section 77.25, Part 77, of the Federal Aviation Regulations; and the Sponsor further covenants that it will control the subsequent erection of structures and control natural growth to the extent necessary to prevent the creation of obstructions within said standards.

11. It is understood and agreed that the reference in Paragraph 7, Part III, Sponsor's Assurances of the Project Application to "Section 77.23 as applied to Section 77.27" is hereby revised to refer to "Section 77.23 as applied to Section 77.25."

12. The Sponsor hereby further covenants that it will not permit any permanent-type structures, other than structures required for aids to air navigation and such other structures as may be specifically excepted in writing by the FAA, to be erected on, and that it will cause any existing structures to be removed from, each area identified on the "Exhibit A" as "clear zone" or any portions thereof, concerning which the Sponsor has acquired a fee interest with federal financial assistance, irrespective of whether such structures constitute an obstruction to air navigation.

13. It is understood and agreed that the terms "Federal Aviation Agency" or "Federal Airport Act", wherever they appear in this agreement, in the Project Application, plans and specifications, or in any other document constituting a part of this agreement, shall be deemed to mean "Federal Aviation Administration" or the "Airport and Airway Development Act of 1970", as the case may be.

14. The Sponsor agrees that it will maintain a fee and rental structure for the facilities and services being provided the airport users which will make the airport as self-sustaining as possible under the circumstances existing at that particular airport, taking into account such factors as the volume of traffic and economy of collection.

15. It is also understood and agreed that Paragraph 2, Part III, of the Project Application is revised to read as follows:

> The Sponsor will operate the airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes; provided, that the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the airport; and provided further, that the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the airport if such action is necessary -

a. For safe and efficient use of the airport,

b. To keep operation activities within acceptable noise levels, or

c. To serve the civil aviation needs of the public.

16. It is understood and agreed that subparagraphs a. and b. of Paragraph 3 of Part III - Sponsor's Assurances of the Project Application - are amended and revised to delete the words "or hereafter" wherever they appear therein. It is the intent of this amendment to limit the application of the exclusive rights policy only to airports now owned or controlled by the Sponsor.

17. It is understood and agreed that Paragraph 10, Part III, of the Project Application is revised to read as follows:

> The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects as long as the essential data is furnished. The airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations, and other instruments will be made available for inspection and audit by the FAA and the Comptroller General of the United States, or his duly authorized representative upon reasonable request. The Sponsor will furnish to the FAA or the General Accounting Office a true copy of any such documents.

18. Pursuant to Paragraph 9, Part III of the Project Application dated 11 May 1972, the Sponsor, City of Chicago, Illinois hereby covenants and agrees to furnish the Federal Government without cost, within four (4) months after written request therefor, such estates or interests in such land or rights in buildings as are deemed necessary by FAA for the construction and operation on the airport of the structures or facilities set forth below, provided the respective areas of land and/or buildings deemed adequate by FAA for such purposes are available without the necessity for removing or relocating other facilities and are within the geographic boundaries of the airport at the time request therefor, is made by the FAA; together with rights of ready access in and to such areas or buildings for construction, occupancy and use and the right to connect to existing utilities and to be furnished the utility services required to the extent of available capacity at no more than prevailing rates. The Sponsor is obligated to furnish approximately one acre for the construction of an Air Traffic Control Tower.

It is further understood and agreed that nothing contained herein shall in any way effect the rights of the United States or obligations of the Sponsor under prior Grant Agreements to furnish rent free space for the activities specified in such prior Agreements nor shall anything contained herein be construed as obligating the Federal Government to construct, occupy or operate a control tower or flight service station at the airport.

19. It is understood and agreed by and between the parties hereto that this Grant Offer is made and accepted upon the basis of preliminary plans and specifications submitted with the Project Application dated 11 May 1972 for the "Overlay Service Road, Install Blast Fence and Construct, Light and Mark Taxiway for Future General Aviation Area", and final plans and specifications for all other project development were approved, subject to engineering comments, by Chief, Engineering Section, Chicago Airports District Office, Great Lakes Region, FAA. It is further understood and agreed that the Sponsor shall furnish final plans and specifications for that development covered by the above noted preliminary plans to the FAA and that no construction on that development shall be commenced hereunder until the said final plans and specifications have been approved by the FAA; and the parties do hereby further covenant and agree that any reference made in this Grant Offer or in the aforesaid Project Application to plans and specifications shall be considered as having reference to said final plans and specifications as so approved.

20. a. The parties hereto recognize that a continuing need exists for parking space for Government owned and controlled automotive equipment used or assigned for use in serving FAA facilities and equipment on or in the vicinity of the airport. It is agreed by the parties hereto that the Sponsor will continue to provide, without charge, designated parking space as now exists in reasonable proximity to FAA operations for such automotive equipment and that no change or modifications will be made in such designation without the consent of the parties hereto or their designated representative.

b. The parties hereto further recognize the need for adequate parking space for the motor vehicles used by the FAA employees in providing them with transportation to their place of employment and assigned duty stations on the airport. It is fully understood by and between parties hereto that the Sponsor has made adequate parking space available to these employees on terms that are as favorable as those provided to the Sponsor's employees and the employees of others having duty stations on the airport. It is agreed by the parties hereto that the relationship now existing with respect to automobile parking space for FAA employees will continue and that no change will be made to alter this relationship or to either curtail or enlarge the demand for the parking facilities designated without the consent and concurrence of the parties hereto or their designated representatives.

21. The Sponsor further covenants that it will not cause or permit any structure or object of natural growth to extend above the plane of the light path within the land area (presently, or hereafter owned or controlled by the Sponsor) comprising the site of any Approach Lighting System serving the aforesaid airport (an ALS site being an area extending 3200 feet outward from the approach end of the runway served and 400 feet in width located symmetrically about the projected runway centerline).

22. The Sponsor hereby covenants and agrees that the United States shall not make, nor shall it be obligated to make, any grant payment under this project until an Agency and Participation Agreement has been entered into by and between the City of Chicago, as principal, and the State of Illinois, Department of Aeronautics, as agent, and the same has been determined by the FAA to be consonant with the applicable statutes of the State of Illinois.

23. It is understood and agreed by and between the parties hereto that the United States shall not make, nor shall it be obligated to make, final grant payment hereunder until the Sponsor has submitted for review by the FAA all leases and concession agreements in effect at the said Airport, that have not been previously reviewed by the FAA, which grant rights to conduct enterprises rendering services to the public, and the same have been determined by the FAA to be non-objectionable.

24. The Sponsor covenants and agrees that it will acquire from the Board of Education of the City of Chicago either title in fee to the property comprising Midway Airport and encompassed within the most recent FAA approved Airport Layout Plan (ALP) of the aiport, free and clear of any reversionary interest, lien, easement, lease or other encumbrances which, in the opinion of the Administrator, would create an undue risk that might deprive the Sponsor of possession or control of the airport, interfere with its use for public airport purposes or make it impossible for the Sponsor to carry out the agreements and assurances in the Project Application, or, in lieu thereof, provide assurances, satisfactory to the FAA, that this airport will continue to be operated and maintained as a public airport for a period of not less than 25 years, or more, subsequent to the expiration of its present lease with the Board of Education of the City of Chicago on 31 December 1980.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise a Grant Agreement, as provided by the Airport and Airway Development Act of 1970, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and the operation and maintenance of the Airport. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer and shall remain in full force and effect throughout the useful life of the facilities developed under the Project but in any event not to exceed twenty years from the date of said acceptance.

Part III–SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes: *Provided*, That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further*, That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor–

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now or hereafter owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now or hereafter owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity.

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided*, That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further*, That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.27, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the convenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS ADMINISTERED BY THE FEDERAL AVIATION ADMINISTRATION

The covenant shall become effective upon execution and shall constitute part of the Grant Agreement to which it relates and shall remain in full force and effect so long as the airport covered by such agreement continues to be used and operated as a public airport.

5. The Sponsor shall operate and maintain the airport as provided in the Project Application incorporated herein and specifically covenants and agrees, in accordance with its Assurance 4 in Part III of said Project Application, that in its operation and the operation of all facilities thereof, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed or national origin in the use of any of the facilities provided for the public on the airport.

6. The FAA reserves the right to amend or withdraw this Offer at any time prior to its acceptance by the Sponsor.

7. This Offer shall expire and the United States shall not be obligated to pay any part of the costs of the Project unless this Offer has been accepted by the Sponsor on or before 26 June 1972 or such subsequent date as may be prescribed in writing by the FAA.

8. The Sponsor hereby agrees that it will incorporate or cause to be incorporated into any contract for construction work, or modification thereof, as defined in the regulations of the Secretary of Labor at 41 CFR Chapter 60, which is paid for in whole or in part with funds obtained from the Federal Government or borrowed on the credit of the Federal Government pursuant to a grant, contract, loan, insurance, or guarantee, or undertaken pursuant to any federal program involving such grant, contract, loan insurance, or guarantee the following Equal Opportunity clause.

   During the performance of this contract, the contractor agrees as follows:

   a. The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination, rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.

   b. The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, or national origin.

c. The contractor shall send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

d. The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

e. The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations and orders.

f. In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be cancelled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rules, regulations, or order of the Secretary of Labor, or as otherwise provided by law.

g. The contractor will include the portion of the sentence immediately preceding paragraph a. and the provisions of paragraph a. through g. in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to Section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance. Provided, however, that in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

The Sponsor further agrees that it will be bound by the above Equal Opportunity clause with respect to its own employment practices when it participates in federally assisted construction work: Provided, that if the applicant so participating is a State or local government, the above Equal Opportunity clause is not applicable to any agency, instrumentality or subdivision of such government which does not participate in work on or under the contract.

The Sponsor agrees that it will assist and cooperate actively with the administering agency and the Secretary of Labor in obtaining the compliance of contractors and subcontractors with the Equal Opportunity clause and the rules, regulations, and relevant orders of the Secretary of Labor that it will furnish the administering agency with the Secretary of Labor such information as they may require for the supervision of such compliance, and that it will otherwise assist the administering agency in the discharge of the agency's primary responsibility for securing compliance.

The Sponsor further agrees that it will refrain from entering into any contract or contract modification subject to Executive Order 11246 of 24 September 1965, with a contractor debarred from, or who has not demonstrated eligibility for, government contracts and federally assisted construction contracts pursuant to the Executive Order and will carry out such sanctions and penalties for violation of the Equal Opportunity clause as may be imposed upon contractors and subcontractors by the administering agency or the Secretary of Labor pursuant to Part III, Subpart D, of the Executive Order. In addition, the Sponsor agrees that if it fails or refused to comply with these undertakings, the administering agency may take any or all of the following actions: Cancel, terminate, or suspend in whole or in part this grant (contract, loan, insurance, guarantee), refrain from extending any further assistance to the Sponsor under the program with respect to which the failure or refund occurred until satisfactory assurance of future compliance has been received from the Sponsor; or refer the case to the Department of Justice for appropriate legal proceedings.

9. The Sponsor hereby convenants and agrees that its financial records of the project, established, maintained and made available to personnel of the FAA in conformity to Section 151.55 of the Regulations of the Federal Aviation Agency (14 CFR 151) will also be available to representatives of the Comptroller General of the United States.

10. By its acceptance hereof, the Sponsor hereby covenants that to the extent it has or may have either present or future control over each area identified on the Exhibit "A" as "clear zone", and unless exceptions to or deviations from the following obligations have been granted to the Sponsor in writing by the FAA, it will clear said area or areas of any existing structure or any natural growth which constitutes an obstruction to air navigation with the standards

established by Section 77.23 as applied to Section 77.25, Part 77, of the Federal Aviation Regulations; and the Sponsor further covenants that it will control the subsequent erection of structures and control natural growth to the extent necessary to prevent the creation of obstructions within said standards.

11. It is understood and agreed that the reference in Paragraph 7, Part III, Sponsor's Assurances of the Project Application to "Section 77.23 as applied to Section 77.27" is hereby revised to refer to "Section 77.23 as applied to Section 77.25."

12. The Sponsor hereby further covenants that it will not permit any permanent-type structures, other than structures required for aids to air navigation and such other structures as may be specifically excepted in writing by the FAA, to be erected on, and that it will cause any existing structures to be removed from, each area identified on the "Exhibit A" as "clear zone" or any portions thereof, concerning which the Sponsor has acquired a fee interest with federal financial assistance, irrespective of whether such structures constitute an obstruction to air navigation.

13. It is understood and agreed that the terms "Federal Aviation Agency" or "Federal Airport Act", wherever they appear in this agreement, in the Project Application, plans and specifications, or in any other document constituting a part of this agreement, shall be deemed to mean "Federal Aviation Administration" or the "Airport and Airway Development Act of 1970", as the case may be.

14. The Sponsor agrees that it will maintain a fee and rental structure for the facilities and services being provided the airport users which will make the airport as self-sustaining as possible under the circumstances existing at that particular airport, taking into account such factors as the volume of traffic and economy of collection.

15. It is also understood and agreed that Paragraph 2, Part III, of the Project Application is revised to read as follows:

> The Sponsor will operate the airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes; provided, that the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the airport; and provided further, that the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the airport if such action is necessary -

a. For safe and efficient use of the airport,

b. To keep operation activities within acceptable noise levels, or

c. To serve the civil aviation needs of the public.

16. It is understood and agreed that subparagraphs a. and b. of Paragraph 3 of Part III - Sponsor's Assurances of the Project Application - are amended and revised to delete the words "or hereafter" wherever they appear therein. It is the intent of this amendment to limit the application of the exclusive rights policy only to airports now owned or controlled by the Sponsor.

17. It is understood and agreed that Paragraph 10, Part III, of the Project Application is revised to read as follows:

> The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects as long as the essential data is furnished. The airport and all airport records and documents affecting the airport, including deeds, leases, operation and use agreements, regulations, and other instruments will be made available for inspection and audit by the FAA and the Comptroller General of the United States, or his duly authorized representative upon reasonable request. The Sponsor will furnish to the FAA or the General Accounting Office a true copy of any such documents.

18. It is understood and agreed by and between the parties hereto that the United States shall not make, nor shall it be obligated to make, any grant payment hereunder until an Agreement of Limited Agency relating to this project has been entered into by and between the Sponsor, the City of Chicago, as Principal and the State of Illinois, Department of Aeronautics as Agent, and such Agreement has been determined by the FAA to be consonant with the applicable statutes of the State of Illinois.

19. The Federal Government does not now plan or contemplate the construction of any structures pursuant to Paragraph 9 of Part III - Sponsor's Assurances of the Project Application, and therefore it is understood and agreed that the Sponsor is under no obligation to furnish any such areas or rights without cost to the Federal Government under this Grant Agreement. However, nothing contained herein shall be construed as altering or changing the rights of the United States and/or the obligations of the Sponsor under prior Grant Agreements to furnish rent-free space for the activities specified in such agreements.

20. a. The parties hereto recognize that a continuing need exists for parking space for Government owned and controlled automotive equipment used or assigned for use in serving FAA facilities and equipment on or in the vicinity of the airport. It is agreed by the parties hereto that the Sponsor will provide, without charge, designated parking space in reasonable proximity to FAA operations for such automotive equipment and that no change or modifications will be made in such designation without the consent of the parties hereto or their designated representative.

b. The parties hereto further recognize the need for adequate parking space for the motor vehicles used by the FAA employees in providing them with transportation to their place of employment and assigned duty stations on the airport. It is fully understood by and between the parties hereto that the Sponsor has made adequate parking space available to those employees on terms that are as favorable as those provided to the Sponsor's employees and the employees of others having duty stations on the airport. It is agreed by the parties hereto that the relationship now existing with respect to automobile parking space for FAA employee's will continue and that no change will be made to alter this relationship or to either curtail or enlarge the demand for the parking facilities designated without the consent and concurrence of the parties hereto or their designated representatives.

21. The Sponsor further covenants that it will not cause or permit any structure or object of natural growth to extend above the plane of the light path within the land area (presently, or hereafter owned or controlled by the Sponsor) comprising the site of any Approach Light System serving the aforesaid airport (an ALS site being an area extending 3200 feet outward from the approach end of the runway served and 400 feet in width located symmetrically about the project runway centerline).

22. It is understood and agreed by and between the parties hereto that any reference herein or in the aforesaid Project Application, dated 19 April 1972 to plans and specifications shall mean the plans and specifications approved, subject to engineering comments, by the Chicago Metropolitan Engineer, Chicago Airports District Office, Great Lakes Region, Federal Aviation Administration on 3 and 28 April 1972 for the portion of the parallel taxiway for Runway 14R/32L and a portion of A and B ramps, respectively.

The Sponsor's acceptance of this Offer and ratification and adoption of the Project Application incorporated herein shall be evidenced by execution of this instrument by the Sponsor, as hereinafter provided, and said Offer and Acceptance shall comprise a Grant Agreement, as provided by the Airport and Airway Development Act of 1970, constituting the obligations and rights of the United States and the Sponsor with respect to the accomplishment of the Project and the operation and maintenance of the Airport. Such Grant Agreement shall become effective upon the Sponsor's acceptance of this Offer and shall remain in full force and effect throughout the useful life of the facilities developed under the Project but in any event not to exceed twenty years from the date of said acceptance.

Part III–SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes: *Provided*, That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further*, That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor—

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now or hereafter owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now or hereafter owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity.

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

d. Agrees that it will terminate any other exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Federal Airport Act.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the airport, the Sponsor will insert and enforce provisions requiring the contractor;

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; *Provided*, That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided*, That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further*, That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.27, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the convenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS ADMINISTERED BY THE FEDERAL AVIATION ADMINISTRATION

Sponsor Assurances to accompany the Project Application dated April 19, 1972 for a grant of funds for the development of the Chicago-O'Hare International Airport, Chicago, Illinois, under Project No. 8-17-0022-03.

In order to furnish the assurances required by Title VI of the Civil Rights Act of 1964, and by Part 21 of the Regulations of the Office of the Secretary of Transportation, the City of Chicago, (hereinafter called the "Sponsor") hereby covenants and agrees with the United States (hereinafter called the "Government") as follows:

> "The Sponsor in the operation and use of the airport will not on the grounds of race, color, or national origin, discriminate or permit discrimination against any person or group of persons in any manner prohibited by Part 21 of the Regulations of the Office of the Secretary of Transportation."

The Sponsor will also include, or require the inclusion, in every agreement or concession pursuant to which any person, other than the Sponsor, operates or has the right to operate any facility on the Airport providing services to the public, the foregoing covenant as an obligation assumed by that person, together with a provision granting the Sponsor the right to take such action as the Government may direct to enforce that covenant.

Noncompliance with the above assurances shall constitute a material breach, and in the event of such noncompliance, the Government may take appropriate action to enforce compliance, may terminate the Grant Agreement to which the covenant relates, or seek judicial enforcement.

The covenant shall become effective upon execution and shall constitute part of the Grant Agreement to which it relates and shall remain in full force and effect so long as the airport covered by such agreement continues to be used and operated as a public airport.

Part IV—PROJECT AGREEMENT

If the Project or any portion thereof is approved by the FAA, and an offer of Federal aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the FAA, and the Grant Agreement with respect to the Project.

IN WITNESS WHEREOF, the Sponsor has caused this Project Application to be duly executed in its name, this 19th day of April, 1972

Accordingly, it is estimated that the share of the Municipality in the cost of Project No. 8-17-0029-02 will be Seventy-five Thousand and No/100 Dollars ($75,000.00). However, the Municipality specifically agrees that in any event it will pay on project costs any amount by which the total of actual project costs may and shall exceed the amount of Federal Funds granted to or allowed and paid on project costs, as the same may be incurred by reasons of contingencies, over-runs, engineering errors, or otherwise, in order to complete the work called for by the Project Grant Agreement with the United States and the project plans and specifications as the same may, with the express consent and approval of the Municipality, be supplemented, amended, changed, or modified subject, however, and only to the budgetary limitation.

13. Notices, reports or other communication required by or transmitted pursuant to this Agreement, to the Department, shall be directed to the attention of the Director of Aeronautics; Department of Aeronautics of the State of Illinois, Capital Airport, Springfield, Illinois 62705, and to the Municipality shall be directed to the attention of the Commissioner of Aviation and the City Comptroller, City of Chicago, City Hall, Chicago, Illinois 60602.
14. To the extent that the Project Application or Grant Offer requires, this Agreement is made subject and subordinate to the provisions thereof.
15. This contract shall be and is deemed to be one entered into pursuant to the Illinois Aeronautics Act of the State of Illinois, and shall be construed and given effect in accordance with said Act and not otherwise.

Part III—SPONSOR'S ASSURANCES

In order to furnish the assurances required by the Act and Regulations the Sponsor hereby covenants and agrees with the United States, as follows:

1. These covenants shall become effective upon acceptance by the Sponsor of an offer of Federal aid for the Project or any portion thereof, made by the FAA and shall constitute a part of the Grant Agreement thus formed. These covenants shall remain in full force and effect throughout the useful life of the facilities developed under this Project, but in any event not to exceed twenty (20) years from the date of said acceptance of an offer of Federal aid for the Project.

2. The Sponsor will operate the Airport as such for the use and benefit of the public. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically agrees that it will keep the Airport open to all types, kinds, and classes of aeronautical use on fair and reasonable terms without discrimination between such types, kinds, and classes: *Provided*, That the Sponsor may establish such fair, equal, and not unjustly discriminatory conditions to be met by all users of the Airport as may be necessary for the safe and efficient operation of the Airport; *And Provided Further*, That the Sponsor may prohibit or limit any given type, kind, or class of aeronautical use of the Airport if such action is necessary for the safe operation of the airport or necessary to serve the civil aviation needs of the public.

3. The Sponsor—

a. Will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now or hereafter owned or controlled by it;

b. Agrees that, in furtherance of the policy of the FAA under this covenant, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now or hereafter owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity.

c. Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

d. Agrees that it will terminate any other exclusive right to conduct an aeronautical activity now existing at such an airport before the grant of any assistance under the Federal Airport Act.

4. The Sponsor agrees that it will operate the Airport for the use and benefit of the public, on fair and reasonable terms, and without unjust discrimination. In furtherance of this covenant (but without limiting its general applicability and effect), the Sponsor specifically covenants and agrees:

a. That in its operation and the operation of all facilities on the airport, neither it nor any person or organization occupying space or facilities thereon will discriminate against any person or class of persons by reason of race, color, creed, or national origin in the use of any of the facilities provided for the public on the Airport.

b. That in any agreement, contract, lease, or other arrangement under which a right or privilege at the Airport is granted to any person, firm, or corporation to conduct or engage in any aeronautical activity for furnishing services to the public at the airport, the Sponsor will insert and enforce provisions requiring the contractor;

(1) to furnish said service on a fair, equal, and not unjustly discriminatory basis to all users thereof, and

(2) to charge fair, reasonable, and not unjustly discriminatory prices for each unit or service; *Provided*, That the contractor may be allowed to make reasonable and nondiscriminatory discounts, rebates, or other similar types of price reductions to volume purchasers.

c. That it will not exercise or grant any right or privilege which would operate to prevent any person, firm, or corporation operating aircraft on the Airport from performing any services on its own aircraft with its own employees (including, but not limited to maintenance and repair) that it may choose to perform.

d. In the event the Sponsor itself exercises any of the rights and privileges referred to in subsection b, the services involved will be provided on the same conditions as would apply to the furnishing of such services by contractors or concessionaires of the Sponsor under the provisions of such subsection b.

5. Nothing contained herein shall be construed to prohibit the granting or exercise of an exclusive right for the furnishing of nonaviation products and supplies or any service of a nonaeronautical nature or to obligate the Sponsor to furnish any particular nonaeronautical service at the Airport.

6. The Sponsor will operate and maintain in a safe and serviceable condition the Airport and all facilities thereon and connected therewith which are necessary to serve the aeronautical users of the Airport other than facilities owned or controlled by the United States, and will not permit any activity thereon which would interfere with its use for airport purposes: *Provided*, That nothing contained herein shall be construed to require that the Airport be operated for aeronautical uses during temporary periods when snow, flood, or other climatic conditions interfere with such operation and maintenance; *And Provided Further*, That nothing herein shall be construed as requiring the maintenance, repair, restoration or replacement of any structure or facility which is substantially damaged or destroyed due to an act of God or other condition or circumstance beyond the control of the Sponsor.

7. Insofar as it is within its power and reasonably possible, the Sponsor will, either by the acquisition and retention of easements or other interests in or rights for the use of land or airspace or by the adoption and enforcement of zoning regulations, prevent the construction, erection, alteration, or growth of any structure, tree, or other object in the approach areas of the runways of the Airport, which would constitute an obstruction to air navigation according to the criteria or standards prescribed in Section 77.23, as applied to Section 77.27, Part 77 of the Federal Aviation Regulations. In addition, the Sponsor will not erect or permit the erection of any permanent structure or facility which would interfere materially with the use, operation, or future development of the Airport, in any portion of a runway approach area in which the Sponsor has acquired, or may hereafter acquire, property interests permitting it to so control the use made of the surface of the land.

8. All facilities of the Airport developed with Federal aid and all those usable for the landing and taking off of aircraft, will be available to the United States at all times, without charge, for use by military and naval aircraft in common with other aircraft, except that if the use by military and naval aircraft is substantial, a reasonable share, proportional to such use, of the cost of operating and maintaining facilities so used, may be charged. Unless otherwise determined by the FAA, or otherwise agreed to by the Sponsor and the using agency, substantial use of an airport by military and naval aircraft will be considered to exist when operations of such aircraft are in excess of those which, in the opinion of the FAA, would unduly interfere with use of the landing area by other authorized aircraft, or during any calendar month that:

a. Five (5) or more military or naval aircraft are regularly based at the airport or on land adjacent thereto; or

b. The total number of movements (counting each landing as a movement and each takeoff as a movement) of military or naval aircraft is 300 or more, or the gross accumulative weight of military or naval aircraft using the Airport (the total movements of military or naval aircraft multiplied by gross certified weights of such aircraft) is in excess of five million pounds.

9. Whenever so requested by the FAA, the Sponsor will furnish without cost to the Federal Government, for construction, operation and maintenance of facilities for air traffic control activities, or weather reporting activities and communication activities related to air traffic control, such areas of land or water, or estate therein, or rights in buildings of the Sponsor as the FAA may consider necessary or desirable for construction at Federal expense of space or facilities for such purposes. The approximate amounts of areas and the nature of the property interests and/or rights so required will be set forth in the Grant Agreement relating to the Project. Such areas or any portion thereof will be made available as provided herein within 4 months after receipt of written request from the FAA.

10. The Sponsor will furnish the FAA with such annual or special airport financial and operational reports as may be reasonably requested. Such reports may be submitted on forms furnished by the FAA, or may be submitted in such manner as the Sponsor elects so long as the essential data are furnished. The Airport and all airport records and documents affecting the Airport, including deeds, leases, operation and use agreements, regulations, and other instruments, will be made available for inspection by any duly authorized representative of the FAA upon reasonable request. The Sponsor will furnish to the FAA, upon request, a true copy of any such document.

11. The Sponsor will not enter into any transaction which would operate to deprive it of any of the rights and powers necessary to perform any or all of the covenants made herein, unless by such transaction the obligation to perform all such covenants is assumed by another public agency found by the FAA to be eligible under the Act and Regulations to assume such obligations and having the power, authority, and financial resources to carry out all such obligations. If an arrangement is made for management or operation of the Airport by any agency or person other than the Sponsor or an employee of the Sponsor, the Sponsor will reserve sufficient rights and authority to insure that the Airport will be operated and maintained in accordance with the Act, the Regulations, and these covenants.

12. The Sponsor will keep up to date at all times an airport layout plan of the Airport showing (1) the boundaries of the Airport and all proposed additions thereto, together with the boundaries of all offsite areas owned or controlled by the Sponsor for airport purposes, and proposed additions thereto; (2) the location and nature of all existing and proposed airport facilities and structures (such as runways, taxiways, aprons, terminal buildings, hangars, and roads), including all proposed extensions and reductions of existing airport facilities; and (3) the location of all existing and proposed nonaviation areas and of all existing improvements thereon. Such airport layout plan, and each amendment, revision, or modification thereof, shall be subject to the approval of the FAA, which approval shall be evidenced by the signature of a duly authorized representative of the FAA on the face of the airport layout plan. The Sponsor will not make or permit the making of any changes or alterations in the Airport or any of its facilities other than in conformity with the airport layout plan as so approved by the FAA, if such changes or alterations might adversely affect the safety, utility, or efficiency of the Airport.

13. Insofar as is within its power and to the extent reasonable, the Sponsor will take action to restrict the use of land adjacent to or in the immediate vicinity of the Airport to activities and purposes compatible with normal airport operations including landing and takeoff of aircraft.

14. If at any time it is determined by the FAA that there is any outstanding right or claim of right in or to the Airport property, other than those set forth in Part II, paragraphs 7(a), 7(b), and 7(c), the existence of which creates an undue risk of interference with the operation of the Airport or the performance of the convenants of this Part, the Sponsor will acquire, extinguish, or modify such right or claim of right in a manner acceptable to the FAA.

15. Unless the context otherwise requires, all terms used in these covenants which are defined in the Act and the Regulations shall have the meanings assigned to them therein.

NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS ADMINISTERED BY THE FEDERAL AVIATION ADMINISTRATION

Sponsor Assurances to accompany the Project Application dated May, 1972 for a grant of funds for the development of the Merrill C. Meigs Airport, Chicago, Illinois, under Project No. 8-17-0029-02.

In order to furnish the assurances required by Title VI of the Civil Rights Act of 1964, and by Part 21 of the Regulations of the Office of the Secretary of Transportation, the City of Chicago, (hereinafter called the "Sponsor") hereby covenants and agrees with the United States (hereinafter called the "Government") as follows:

> "The Sponsor in the operation and use of the airport will not on the grounds of race, color, or national origin, discriminate or permit discrimination against any person or group of persons in any manner prohibited by Part 21 of the Regulations of the Office of the Secretary of Transportation."

The Sponsor will also include, or require the inclusion, in every agreement or concession pursuant to which any person, other than the Sponsor, operates or has the right to operate any facility on the Airport providing services to the public, the foregoing covenant as an obligation assumed by that person, together with a provision granting the Sponsor the right to take such action as the Government may direct to enforce that covenant.

Noncompliance with the above assurances shall constitute a material breach, and in the event of such noncompliance, the Government may take appropriate action to enforce compliance, may terminate the Grant Agreement to which the covenant relates, or seek judicial enforcement.

The covenant shall become effective upon execution and shall constitute part of the Grant Agreement to which it relates and shall remain in full force and effect so long as the airport covered by such agreement continues to be used and operated as a public airport.

Part IV–PROJECT AGREEMENT

If the Project or any portion thereof is approved by the FAA, and an offer of Federal aid for such approved Project is accepted by the Sponsor, it is understood and agreed that all airport development included in such Project will be accomplished in accordance with the Act and the Regulations, the plans and specifications for such development, as approved by the FAA, and the Grant Agreement with respect to the Project.

IN WITNESS WHEREOF, the Sponsor has caused this Project Application to be duly executed in its name, this 9th day of May, 1972.

To the Honorable, The City Council of the City of Chicago:

Referred—PROPOSED ORDINANCE TO INCREASE FEES FOR VEHICLE TAX LICENSES, ETC.

Honorable Richard J. Daley, Mayor, submitted the following communication, which was, together with the proposed ordinance transmitted therewith, *Referred to the Committee on Finance:*

OFFICE OF THE MAYOR
CITY OF CHICAGO
August 30, 1972.

To the Honorable, The City Council of the City of Chicago:

LADIES AND GENTLEMEN—The present license fees for motor vehicles were authorized by the Council in December, 1951. During the more than twenty years since that time, costs have risen in every sector of our economy, including the costs of salaries and materials for the maintenance of streets.

Moreover, beginning June 1, 1973, the Automobile Emission Control Ordinance, passed by the Council on November 29, 1971, will require the annual inspection and testing of every motor vehicle registered in the city in an effort to reduce pollutants caused by automobiles.

In order to provide the necessary revenues for expenses relating to the use of streets and to defray the cost of automotive emission control inspections, I am transmitting herewith an ordinance increasing the vehicle tax license fee five dollars for passenger vehicles up to 55 horsepower and creating a new classification for passenger vehicles with engines of 55 horsepower or more.

In addition, this proposed ordinance revises the license fee structure as it applies to all classes of trucks and trailers.

This would mean an increase from $15 to $20 in the annual license fee for passenger vehicles of 35 horsepower or less. The fee for automobiles of more than 35 but less than 55 horsepower would be increased from $30 to $35. The fee for the new classification of automobiles with 55 horsepower or more would be $50.

Registration figures for 1971 showed that 228,000 passenger vehicles were under 35 horsepower, 635,000 were 35 up to 55 horsepower, and 105,000 were 55 horsepower and above.

In 1971, the sale of vehicle licenses produced $28,223,000 in revenues. It is estimated that the proposed increases in vehicle license fees will result in an additional $7,500,000 annually for the Vehicle Tax Fund.

Under this ordinance all revenues derived from vehicle license fees would be used for paying the cost of repair, maintenance and improvement of streets and alleys, traffic law enforcement, automobile emission control testing and such other uses as the Council shall authorize.

It should be noted that vehicle owners will not be charged any fee when their vehicles are inspected and tested as part of the automotive emission control program. Moreover, the inspections are expected to result in financial savings for car owners through subsequent improved gasoline mileage and increased vehicle reliability.

The automotive emission control program is expected to reduce the carbon monoxide content of our air by approximately twenty-five per cent and the hydrocarbon content by twenty per cent.

These proposed license fees will advance Chicago toward its ecological goal of having the best air quality of any large city in the nation. At the same time, necessary revenues will be available for the maintenance of streets.

Your favorable consideration of this ordinance will be appreciated.

Very truly yours,
(Signed) RICHARD J. DALEY,
Mayor.

Tribute Paid to Late Dr. Rudolph Ganz.

Honorable Richard J. Daley, Mayor, on behalf of himself and the other members of the City Council submitted the following proposed resolution:

> WHEREAS, Almighty God in His Infinite Wisdom, has called to his eternal reward Dr. Rudolph Ganz, distinguished elder statesman of music in the midwest, on August 2, 1972; and
>
> WHEREAS, Dr. Ganz was born in Zurich, Switzerland on February 24, 1877. He made his first public appearance as a cellist at the age of 12 and made a second debut, as a pianist at the age of 17. After study at several conservatories, he went to Berlin where his teachers included Busoni, the master whom Dr. Ganz always named as the greatest influence on his own approach. The Berlin Philharmonic Orchestra introduced the young Ganz as soloist in two concertos and conductor of his First Symphony during the 1899-1900 season. His first appearance in Chicago and in the United States was in a recital in 1902. In 1903 he first appeared with the Chicago Symphony Orchestra and returned to play with the orchestra for the next 40 years. He was first represented as a composer in the Chicago Symphony Orchestra concerts of 1911-1912; and
>
> WHEREAS, Conducting was a major aspect of the career of Dr. Ganz. He was music director of the St. Louis Symphony Orchestra for six seasons from 1921 to 1927. He was a specialist in programs for young people, which he directed with the New York Philharmonic and the San Francisco Symphony Orchestra. Dr. Ganz was guest conductor of many leading orchestras in this country and the world, including the London Symphony and the Paris Conservatory Orchestras. WHEREAS, Dr. Ganz held honorary doctorates from several colleges and Universities, including the University of Cincinnati and the University of Rochester. He became an officer of the French Legion of Honor in 1925 for his services to music. The long list of honors awarded him during his lifetime cannot summarize the importance of Dr. Ganz as a man and musician. He was always the champion of what he saw to be new, constructive, and imaginative in music. He played the music of Ravel in 1904 and became an advocate of Bartok in 1909, 30 years before Bartok was recognized as a major figure in music; and

WHEREAS, Dr. Ganz was a European gentleman and artist of the old school, he was a direct link to the great musical legacy of the past century, but he seemed always the great contemporary and he drew upon his years not for nostalgia, but for a wealth of learning and insight that illuminated his view of the present. His was a life in which the spirit of humanism came to full development. Few other men have moved through Chicago surrounded by more universal feelings of respect and love. He loved Chicago and always came home again to a city that he said had two great beauties, its lakeshore and its future. The true stature of Dr. Ganz can be measured only by his students, but the whole musical world was enriched by his gifts, and he leaves behind him a treasured legacy; now, therefore,

Be It Resolved, That the Mayor and City Council of the City of Chicago in meeting assembled this 30th day of August, A.D., 1972, together with all the people of Chicago and the midwest express publicly their deep sorrow at the passing of Dr. Rudolph Ganz, symbol of Chicago in the world of music, and extend to his wife Esther LaBerge Ganz their sincere sympathy; and

Be It Further Resolved, That a suitable copy of this Resolution be presented to Esther LaBerge Ganz, widow of Dr. Rudolph Ganz.

CITY OF CHICAGO
DEPARTMENT OF LAW

July 31, 1972.

To the Honorable, The City Council of the City of Chicago:

Re: *Thomas Byrd, Plaintiff-Appellant, vs. William P. Brishke et al., Defendants-Appellees,* United States Court of Appeals for the Seventh Circuit, No. 71-1434.

LADIES AND GENTLEMEN—On July 18, 1972, the United States Court of Appeals reversed the judgment of Judge Joseph Samuel Perry of the United States Circuit Court, directing a verdict in favor of twenty-one defendants all members of the Chicago Police Department on a complaint charging them with violation of the civil rights of the plaintiff Byrd.

The Court of Appeals based its reversal on two points. First, the trial judge used an improper standard in directing this verdict because he viewed the evidence in the light most favorable to the defendants.

On the second point, the Court of Appeals reviewed the evidence and found that there was sufficient evidence against three policemen to warrant the submission of the case to the jury with respect to them. On this basis the cause was remanded with instructions for a new trial with respect to the three policemen.

Very truly yours,
(Signed) RICHARD L. CURRY,
Corporation Counsel.

To the Honorable, The City Council of the City of Chicago:

Re: *Dockstader vs. Hartnett, et al.,*
Appellate Court of Illinois,
First District, No. 54605.

LADIES AND GENTLEMEN—In an opinion dated July 14, 1972, the Appellate Court of Illinois, First District, reversed the judgment of the Circuit Court of Cook County in the above-captioned case.

The case commenced with the denial by the Zoning Administrator of Chicago of the plaintiff's application for a certificate of occupancy to operate an auto repair business at 7312-18 N. Rogers Avenue, Chicago. The business was to be conducted in a rear building with an entrance on the alley at that address. The subject building is located in an area designated as a B2-2 District under the Chicago Zoning Ordinance.

The Zoning Administrator denied the application because the proposed use was not one permitted in a B2-2 District under the terms of the ordinance. The plaintiff contended that the proposed use qualified as a legal non-conforming use, and appealed to the Zoning Board of Appeals. When the Board affirmed the denial by the Administrator, the Plaintiff filed an administrative review action in the Circuit Court of Cook County. The court set aside the decision of the Administrator and of the Board. The Board appealed.

In reversing the Circuit Court the Appellate Court held that the proposed use was not a non-conforming use since it was not a continuance of the use originally in the premises and legal at that time. Further, the reviewing court decided that under the provisions of the Zoning Ordinance there are at least ten uses for which the subject property could be utilized and that the plaintiff did not prove the property is not designed or intended for these uses. The Appellate Court concluded, therefore, that plaintiff's proposed use was prohibited by the ordinance as held by the Zoning Board of Appeals.

Very truly yours,

To the Honorable, The City Council of the City of Chicago:

Re: *Joseph J. Halzel d/b/a Royal Cigarette Service* v. *City of Chicago*
Illinois Appellate Court No. 55310.

LADIES AND GENTLEMEN—An opinion was filed in the case referred to above on August 11, 1972 by the Illinois Appellate Court. The judgment reversed the decision of the trial court, ruling in favor of the City of Chicago.

In the circuit court, plaintiff had sought a writ of mandamus directing the City to issue cigarette vending machine licenses. The City had refused the licenses principally on the ground that there was an undisclosed co-owner of plaintiff's business who was ineligible to hold a license because of his conviction for a criminal offense.

After reviewing the evidence the appellate court concluded that no abuse of discretion was shown in the City's refusal to approve plaintiff's applications for licenses and accordingly found that the trial court had erred in awarding the writ of mandamus.

August 8, 1972.

To the Honorable, The City Council of the City of Chicago:

Re: *City of Chicago vs. Ronald Handler et al.,*
Illinois Appellate Court No. 54478.

LADIES AND GENTLEMEN—On July 28, 1972, the Illinois Appellate Court found in favor of the City in the case referred to above and reversed the decision of the court below. The City had sought an injuction in the Circuit Court requiring owners of the property located at 1644 West Sherwin Avenue to conform the buildings on the property to the requirements of the Chicago Zoning Ordinance. A building permit had been issued for the construction of a building consisting of three efficiency apartments and six bedroom apartments. As constructed, however, the building consisted of nine bedroom apartments.

The trial court entered a decree fining the original owner of subject property for departing from the building permit but dismissed the complaint against the present owners and enjoined the City from interfering with the use of the property. The City appealed from the latter part of the decree.

The Appellate Court reversed, holding that the City of Chicago could not, under the circumstances of this case, be estopped from enforcing the Zoning Ordinance against the present owners. The Court noted that the City had done nothing out of which an estoppel could arise and, further, that it was defendants' burden to overcome the presumption that enforcement of the ordinance was for the benefit of the health, safety, and welfare of the public. Accordingly the Appellate Court issued directions that the trial court "enter a decree finding the issue and granting relief in favor of the City of Chicago and against the defendants".

Very truly yours,

To the Honorable, The City Council of the City of Chicago:

Re: *City of Chicago vs. Edmund T. Jachimowski et al.,* Illinois Appellate Court No. 54760.

LADIES AND GENTLEMEN—On July 28, 1972, the Illinois Appellate Court found in favor of the City in the case referred to above and reversed the decision below. The City had sought an injunction in the Circuit Court requiring the owners of the property located at 6901 North Ridge Avenue to conform the building on the property to the requirements of the Zoning Ordinance. A permit had been issued for construction of a building consisting of seventeen effciency apartments. As constructed, however, the building consisted of seventeen bedroom apartments.

The trial court entered a decree finding the original owners of the subject property for departing from the building permit, but dismissed the complaint against the present owners and enjoined the City from interfering with the use of the property. The City appealed from the latter part of the decree.

The appellate court reversed, however, holding that the City of Chicago could not, under the circumstances of the case, be estopped from enforcing the Zoning Ordinance against the present owners. The court stated, also, that the defendants had not overcome the presumption "that enforcement of the zoning ordinance was for the benefit of the health, safety, and welfare of the public". Accordingly, the appellate court issued directions that the trial court enter a judgment finding the issues and granting relief in favor of the City of Chicago and against the defendants in accordance with the prayer of the complaint.

To the Honorable, The City Council of the City of Chicago:

Re: *People of the State of Illinois and City of Chicago, Appellants, vs. Anthony Gregory, et al., Appellees,* Illinois Appellate Court No. 56726.

LADIES AND GENTLEMEN—On July 28, 1972, the Illinois Appellate Court, First District, filed an opinion in the above-entitled cause reversing the decision of the trial court. The case involved the consolidation of more than 200 obscenity cases for the purpose of litigating the sole question of whether an adversary hearing on the question of obscenity is required prior to the issuance of a warrant for an arrest for the sale of a single copy of an allegedly obscene publication. The trial court held that such a prior adversary hearing is required and dismissed the several hundred complaints and discharged the defendants.

On appeal, the City made a motion for summary reversal of the trial court's decision citing as controlling the case of *People* v. *Ridens,* 51 Ill.2d 410 (rehearing denied May 25, 1972), which case had been handed down subsequent to the decision of the trial court. The Appellate Court allowed this motion by way of opinion and reversed and remanded the cases.

To the Honorable, The City Council of the City of Chicago:

Re: *Quinn vs. The Retirement Board of the Firemen's Annuity and Benefit Fund of Chicago, et al.,* Illinois Appellate Court No. 54399.

LADIES AND GENTLEMEN—On July 6, 1972, the Appellate Court affirmed the judgment of the Circuit Court in the case referred to above. The lower court had held that the Retirement Board acted contrary to law and against the manifest weight of the evidence in refusing to accept the plaintiff's payment to the fund so that his pension would be based upon his actual salary rather than that based on the salary appropriated from his Civil Service Grade.

The Appellate Court held that, in its opinion, the legislature intended, in amending the pension code, that the minimum annuity of participation in the fund should be predicated upon the actual amount of the salary appropriated in the annual budget for the particular position occupied by the participant.

Re: *City of Chicago vs. Sunnyside Properties, Inc., et al.*

LADIES AND GENTLEMEN—On July 28, 1972, the Illinois Appellate Court handed down its opinion in the above entitled cause. The case was decided in favor of the City of Chicago.

The case involved the enforcement of provisions of the zoning ordinance of the City of Chicago. Defendants appeal was based on their claim that they were denied the opportunity to present defenses to the action in the trial court. The court held that the defendant did have ample opportunity to present defenses and their contentions were without merit.

To the Honorable, The City Council of the City of Chicago:

Re: *Triangle Outdoor Advertisement Company, Inc., vs. Harry F. Chaddick, et al.,* Illinois Appellate Court No. 54311.

LADIES AND GENTLEMEN—On July 14, 1972, the Illinois Appellate Court, Fifth Division, handed down an opinion in the above entitled case. That opinion reversed the order of the Circuit Court.

The case involved the enforcement of the Chicago Zoning Ordinance which prohibits advertising signs within 400 feet of an expressway. The plaintiff claimed that they were entitled to a non-conforming use because they had maintained a sign at that location since 1947. The court held that because the plaintiff changed the height and turned the sign, they lost any right to a non-conforming use that they might have had. The court did not consider the City's second argument that the City has the right to require plaintiff to remove their sign notwithstanding any non-conforming use provision if the zoning ordinance was based on health and safety.

Very truly yours,

CITY OF CHICAGO
Office of the Mayor

August 30, 1972

Walston & Company Inc.
111 West Jackson Blvd.
Chicago, Illinois

Dear Sirs:

With reference to the $8,000,000 City of Chicago, Chicago-O'Hare International Airport Revenue Bonds, Series of 1972, dated July 1, 1972, and due January 1, 1999 (herein called the "Bonds, Series of 1972") authorized to pay part of the costs of the Improvements (as hereinafter described), this Official Statement, Including its cover page, has been prepared by the City of Chicago, Illinois (herein called the "City") to set forth the general powers of the City under the authorizing statutes, a description of the Improvements being made to Chicago-O'Hare Airport (herein called the "Airport"), the plan for financing and constructing said improvements, a summary of provisions of the Airport Use Agreement and the various Leases entered into by and between the City and certain Airlines, a description of the Bonds, Series of 1972, and the provisions of the Ordinance and Supplemental Ordinance under which the Bonds, Series of 1972, will be issued and secured. All bonds issued under the Ordinance are herein called the "Bonds".

SALIENT FEATURES REGARDING SECURITY OF THE BONDS

The following are the salient features regarding the security of the Bonds, the details of which are set forth in full in the Ordinance and in the Airport Use Agreement and the various Leases between the City and the Airlines:

> The City has executed an Airport Use Agreement and Leases for various facilities included in the development of O'Hare Airport with the respective Airlines shown in the schedule on page 15 which became effective as of January 1, 1959 for a term of 40 years. Amendments have been made since to certain leases.
>
> The Airlines executing the Airport Use Agreement covenant to use O'Hare and to pay in each fiscal year flight fees for the fee landings of their aircraft at such Airport, which flight fees, together with revenues derived from all other sources will produce gross revenues for such fiscal year equal to the sum of operation and maintenance expenses, the amounts to be allocated to certain reserves and an amount equal to 1.25 times the Principal and Interest Requirements, as defined in the Ordinance, on the Approved Revenue Bonds outstanding at the beginning of such fiscal year, and the amount of any premiums paid on such Bonds retired by January 1 of the succeeding fiscal year.
>
> If the flight fee rate in effect during any fiscal year does not produce gross revenues, together with those from other sources, equal to the sum stated in the preceding paragraph, each Airline executing the Airport Use Agreement agrees to pay its pro rata share of such deficiency.
>
> The City covenants that it will fix and place in effect rents, fees, rates and other charges for the use of the Airport including any services rendered by the City in the operation thereof and an initial schedule of fees, rents, rates and charges for services rendered by the City in the operation of the Airport from time to time will be adjusted in order that the revenues from the Airport

will be sufficient to meet and provide for the payment of operation and maintenance, making required deposits to the credit of the Interest Account, Debt Service Reserve Account, Sinking Fund Account, Reserve Maintenance Account and Emergency Reserve Fund and that so long as any bonds issued under Section 2.02 or 2.15 shall be outstanding, such schedule shall in each fiscal year be sufficient to produce, together with rents and other available revenue, net revenues of not less than (i) 1.25 times the principal and interest requirements for each fiscal year of bonds then outstanding issued pursuant to Sections 2.02, 2.15 or 2.16 plus (ii) amounts which may be required in such year for the Reserve Maintenance Account and Emergency Reserve Account, premiums paid on July 1 of each fiscal year and on January 1 of the succeeding fiscal year and on the redemption of such bonds and premiums on such bonds purchased on the open market or by tender during such fiscal year.

The City further covenants that so long as any Bonds are outstanding, it will not amend any Lease or Airport Use Agreement in effect upon the issuance of the Bonds, Series of 1959, so as to reduce the amount of fixed rentals, or the revenues which would otherwise be received from the application of the Flight Fee formula or Flight Fee deficiency formula, below those provided under such Lease or Agreement.

THE CITY AND ITS POWERS

The City of Chicago is authorized by the provisions of Sections 11-102-1 to 11-102-10, inclusive, of Article 11 of Chapter 24, of the Illinois Revised Statutes, 1971, together with all other laws amendatory thereof and supplemental thereto (hereinafter referred to as the "Act"), to establish, purchase, construct, reconstruct, expand, improve, maintain and operate public airports.

The Act provides for financing the cost of constructing, improving or expanding a public airport by ordinance authorizing the issuance of revenue bonds of a municipality payable solely from and secured by a pledge of the bond proceeds and the net revenues derived from the operation of the airport. The Act states that any bonds so issued by a municipality shall not constitute a general obligation of such municipality.

The Act further authorizes a municipality to contract to fix and collect rents, rates and other charges sufficient to produce revenues adequate to pay the costs of maintenance and operation of such airport, the principal of and interest on the bonds issued in connection with such airport as the same shall become due and payable, and to create reserves for such purposes.

A municipality is further authorized under the Act to contract for removal or relocation of all buildings, railways, mains, wires, poles and all other structures, facilities and equipment which may interfere with the location, expansion or improvement of any public airport, or with the safe approach thereto or take off therefrom and to acquire by gift, grant, lease, purchase, condemnation or otherwise any private or public property for any purpose authorized therein.

ECONOMY OF CHICAGO AREA

Chicago and its metropolitan area with a 1960 population of 6,220,913 and a 1970 population of 6,978,947 has the third largest concentration of people in the United States. The area has shown rapid growth in population, having increased about 11.4% in the ten-year period from 1950 to 1960, and 25.0% in the twenty year period from 1950 to 1970. Chicago, by virtue of its geographic location, is one of the world's leading centers of air, water and land transportation and is the industrial, commercial, financial and service center for the Midwest area. Development of long-range commercial aviation and direct shipments by water via the Great Lakes and the St. Lawrence Seaway to other world ports have opened new horizons for Chicago in the world's markets. The City is served by twenty-seven scheduled airlines, six feeder airlines, and several air taxi operators affording complete interchange of traffic with the seventeen trunk line railways and the vast network of highways, tollways and waterways linking the City and its metropolitan area with the surrounding country. The City is unsurpassed in the diversity of its products, and the stability of its economy keeps unemployment low and makes the general level of income among the highest in the nation.

PURPOSE OF ISSUE

As set forth in more detail on page 12 the proceeds from the sale of the Chicago-O'Hare International Airport Revenue Bonds, Series of 1972, will be utilized to pay part of the cost of the construction of eight tunnel sections connecting the new parking facility and new hotel and the existing terminal buildings, an addition to the heating and refrigeration plant, and additions to and expansion of the existing fueling system.

EXISTING CHICAGO AIRPORTS

The City of Chicago operates three Airports, namely: Meigs Field, Midway Airport and Chicago-O'Hare International Airport. The Commissioner of Public Works is responsible for major construction at the Airports and the Commissioner of Aviation is responsible for the planning, design, construction, business management, operation and maintenance of the Chicago airports.

Meigs Field

This airport, located on a seventy acre island off the shore of Lake Michigan southeast of Chicago's downtown area, has only one runway which is approximately 3,945 feet in length and is used by privately owned aircraft and feeder lines. Helicopter service is available at Meigs Field for connection with Midway and O'Hare Airports.

Midway Airport

This airport, located southwest of Chicago downtown area, consists of approximately 630 acres, and has seven runways, the longest of which is 5,730 feet between threshold lights. Recently completed improvements include new terminal and concourse buildings, which now provide twenty-eight gate positions, together with new ticketing and baggage facilities. Runway 13R-31L and Runway4R-22L were completely rebuilt to accommodate certain jet aircraft. This airport is now capable of handling the three engine jets and can accommodate an annual volume of 182,000 domestic scheduled aircraft operations and 146,000 general aviation operations. Midway is now a major airport serving downtown, the south and southwest sides of Chicago.

O'Hare Airport

This airport is located northwest of the City's downtown area at the terminus of the John F. Kennedy Expressway and the junction of the Tri-State and Northwest Tollways. The John F. Kennedy Expressway, completed in the fall of 1960, provides O'Hare

Airport passengers with a high-speed, limited access highway into the heart of the City, while the Tollways and highways radiating from the Airport provide the surrounding metropolitan area with access to the Airport via a vast network of excellent highways.

The Airport was acquired from the War Assets Administration of the United States Government on March 21, 1946, at which time it covered a tract of 1,080 acres.. In 1958, the City obtained clear title to the land when the Government released the right to use the Airport that it had reserved under the deed of March 21, 1946, and entered into a lease with the City, under the terms of which the City granted the Government the limited use, in common with others, of the Airport's public facilities, as for example, the runways and taxiways, for a period of twenty-five years, without cost. The Government also has the option of extending the lease for an additional twenty-five years or terminating the lease at any time upon proper notice. Under the lease, the Government agrees to pay the City for all military operations, in excess of the limited number of free operations specified in the lease, at the rates then prevailing for scheduled Airlines.

Since the City acquired the Airport from the Government in 1946, additional City, State and Federal funds have been invested in land acquisition and improvements which amount to a net investment, after deducting accrued depreciation, of $46,713,243 as of December 31, 1971. $224,000,000 in Revenue Bonds have been issued to that date for airport improvements.

In May, 1955, the City negotiated agreements with seventeen airlines covering their use of the airport and the fees to be paid by them. The City Council approved these agreements of October of that year and the Airport was opened for commercial use. These agreements were superseded by the various leases and agreements between Airlines and the City and the existing agreements and leases are set forth on page 15 of this official statement. Three of the Airlines, to-wit: Trans Canada Airlines, Lake Central Airlines, Inc. and Capital Airlines, Inc. have been merged as indicated in the statement on page 15 of the Summary of Airport Use Agreement and Leases, and it is the opinion of the Corporation Counsel of the City of Chicago that each of the Airlines into which said former Airlines were merged have assumed all of the legal obligations of each of said Airlines in the Airport Use Agreement and in the Leases said Airport executed with the City.

The present facilities at O'Hare Airport include two terminal buildings and four concourses for domestic airlines and one terminal building and concourse for international airlines, with restaurant and other passenger facilities, control tower, heating plant, automobile parking lot, motor vehicle parking garage, hotel, taxiways, aircraft parking aprons, water system and reservoir, and six runways of the following length: 11,600 feet, 10,000 feet, 10,000 feet, 7,500 feet, and 7,415 feet and 5,870 feet.

GROWTH OF TRAFFIC AT O'HARE AIRPORT

The City's records show that the number of enplaned passengers at O'Hare Airport increased from 865,380 in 1959 to 13,225,661 in 1971. It is estimated that the number of enplaned passengers will approximate 30,000,000 in the years 1975 - 1980, which are to be accommodated as a result of the proposed expansion of present facilities which is now in the planning stage.

With the main trunk Airlines operating the jet aircraft of greatly increased passenger capacity at O'Hare Airport, the feeder lines have inaugurated substantial supporting schedules at O'Hare Airport to interconnect with these main trunk line flights.

DESCRIPTION OF FACILITIES EXISTING AND PROPOSED FOR DEVELOPMENT BY 1975-1980

The expansion program for O'Hare Airport proposed for the period 1975 thru 1980 is designed to provide Chicago with greatly expanded airport facilities which will accommodate the new family of jet airliners and the increased volume of passengers which they are expected to carry. The facilities included in the expansion program are considered adequate to handle the expected volume of traffic in the years 1975-1980. Current facilities include the following:

TERMINAL AREA

Terminal Buildings

Present terminal facilities consist of two domestic and one international terminal buildings with attendant concourses and concrete aprons for parking aircraft. The domestic terminal buildings are rectangular buildings approximately 140 feet in width and 750 feet in length, consisting of two full floors, a mezzanine floor, and a partial basement. General separation of inbound and outbound passengers is obtained by concentrating items relating to each on separate floors. The second floor has the airline ticket counters, offices, waiting areas and general concessions such as a general merchandise store, newsstand, lunch counters and insurance counters. The outbound passengers arrive at the terminal building on the second floor via an elevated roadway. They may proceed past the ticket counters and board the aircraft by means of loading bridges without leaving this level. The first floor is devoted to baggage handling areas, concessions such as taxi offices, hotel reservations, rent-a-car agencies, telegraph counters and other services. The inbound passengers come from the aircraft at the second floor level, but descend to the first floor via escalators to claim their baggage and obtain ground transportation from the terminal.

The mezzanine floor accomodates airline offices, and airport administrative offices The partial basement provides storage space, meter rooms and areas for mechanical equipment. All areas except baggage handling and mechanical equipment areas are air conditioned. A public address system has also been provided.

The international terminal building is being used by international air carriers and government inspection agencies.

Terminal facilities are to be expanded in the future to meet any additional Airlines and public space requirements as traffic reaches the volume projected for 1975 - 1980.

Concourses

There are four two-story concourses projected from the two terminal buildings with adjacent concrete aprons providing space for parking a minimum of seventy aircraft for the domestic airlines. Two of these concourses are straight and are so-called split "Y" units. They consist of an elevated passenger corridor 20 feet wide with passenger waiting lobbies on either side of the corridor at each airplane "gate position". This level corresponds to the second floor of the terminal building. The first floor level contains airline operation and departure room for those carriers which prefer not to load passengers from the second floor level with loading bridges. In the center of the split "Y" concourses, there are two floors of additional airline operation spaces with an additional enclosed observation area on the roof which overlooks an open observation deck. Utility tunnels 20 feet wide extend the full length of all concourses at basement level. There also is a concourse projected from the international terminal building.

It is contemplated that councourses will be extended in the future from approximately 11,000 lineal feet of existing ramp frontage to approximately 21,000 lineal feet of frontage.

Restaurant

The main restaurant is a large circular building located between and connecting with the two domestic terminal buildings. The basement houses utilities and employees' locker rooms. The first floor accommodates the main central kitchen, storage and an employees' cafeteria. The second floor is devoted to a large coffee shop. A public cafeteria, a small cocktail lounge and a small specialty restaurant are also located on the second floor. This level corresponds to the ticketing and waiting room level of the terminal buildings. On a mezzanine floor above, there is a large dining room, a cocktail lounge, small private dining rooms and a large service kitchen. Total seating capacity of the building is approximately 1,600. Additional restaurant facilities will be added to meet the future needs.

HANGAR AREA

A large tract of land in the northwest section of the Airport has been reserved for hangar facilities. Nine hangars are existing, with additional space available for other hangars in the future. Water, sewers, and power facilities into this area, plus a taxiway and a service roadway exist. Some of the individual hangars are provided with their own water reservoirs to afford adequate fire protection in the area without drawing on the main airport supply for emergencies.(A list of Hangar and Hangar Site Leases is shown on page 15.)

CARGO AREA

The cargo area located east of the terminal area provides joint cargo facilities for most of the airline parties and the Railway Express Agency. There are two joint cargo buildings. One is 70 feet wide and 768 feet long and the other is 48 feet wide and 768 feet long. Concrete aprons adjacent to the joint cargo buildings are sufficient for parking ten aircraft.

Additional cargo buildings that have been constructed include Flying Tiger (36,000 square feet), United Air Lines (142,000 square feet), Trans World Airlines (35,000 square feet), Continental Airlines (142,500 square feet). All buildings have adjacent concrete aprons sufficient for the parking of aircraft, Flying Tiger - six aircraft, United Air Lines - 15 aircraft, Trans World Airlines - 3 aircraft, Continental Airlines - 5 aircraft.

A new cargo area is now being planned to occupy approximately 290 acres to accommodate the future cargo requirements.

FUELING SYSTEM

A tank farm area has been established in the northwest corner of the airport beyond the hangar area. Facilities have been provided at this location for unloading and storing fuel. These include facilities for receiving fuel by pipe line, railroad tank car and truck. The tank farm is connected to satellite storage facilities located around the terminal apron and to the hydrants at the aircraft parking positions by a system of underground pipe lines. Fuel is transferred from the tank farm to satellite storage by means of underground pipe lines. Above-ground tanks are available for storing 5,000,000 gallons of fuel. Underground tanks in the satellite areas store 2,000,000 gallons of fuel.

The fueling system now delivers 2,240,000 gallons of fuel per day to the aircraft. The system will be expanded in the future to deliver the estimated requirement of 5,000,000 gallons per day in 1975. Part of the expansion program is included in the proposed current bond issue.

UTILITIES

The Bureau of Water of the City of Chicago has constructed a 48-inch water main from an existing main to a connection inside the airport. A 30-inch water main extends to the terminal area reservoir and around the terminal area for fire protection. A water supply from the terminal area is through a 16-inch main around the hangar area, and a branch connection exists to the tank farm area.

The water main extends to the terminal area and is in service through a temporary connection to the existing reservoir. Sanitary sewers and water mains serve the hangar area.

STORM DRAINAGE IMPROVEMENTS

A drainage system has been constructed in such a manner that it controls the rapid run-off from the large paved areas so that the water will leave the airport at a predetermined rate in order to avoid inundating the populated areas beyond the airport.

AIRPORT MAINTENANCE BUILDING

The Airport Maintenance Building is a one-story structure containing about 38,000 square feet of floor space. It is in the service area and contains a large garage area providing forty parking spaces for large pieces of airport maintenance equipment.

ELEVATED PARKING STRUCTURE

Parking for approximately 9,250 automobiles will be provided by the new six level reinforced concrete structure located in the southern half of the existing center of the terminal complex parking area. This is under construction with completion scheduled for the end of 1972. Total public parking capacity of the facility and adjoining parking lot will be in excess of 13,000 automobiles.

The total area of the parking structure is 3,725,400 square feet. The floor area for the grade level and each of the five supported levels is 574,000 square feet. A 245,000 square foot basement will provide space for future passenger and baggage processing with access, by tunnel, to existing terminal buildings. An elevated roadway of 36,400 square feet will serve as access to the facility at the first supported level.

Vertical vehicular circulation will be provided by two entrance and two exit ramps. Each floor is divided into two sections, east and west and all traffic will be automatically controlled by electronic detectors, counters and signs. A manager's office, located on the first level, will house a surveillance panel for traffic controls, a carbon monoxide monitoring panel, standpipe alarm communicator, snow melting and ventilation controls and breaker alarm buttons. Pedestrian circulation will be handled in six centers on each floor, two for each terminal building. Each center will contain a stairway and six electric elevators.

As mentioned elsewhere in this brochure, provision is made in the proposed current bond issue to provide pedestrian tunnels to connect the parking structure with the new hotel and with the existing terminal buildings.

OTHER IMPROVEMENTS

Other existing facilities include sanitary sewers, a heating and air-conditioning plant, three fire stations, freight forwarding facilities, rent-a-car areas, in-flight food catering buildings and a telephone exchange building. A hotel with approximate capacity of 1000 rooms is under construction.

The cost of a partial expansion of the heating and air-conditioning plant is included in the proposed $8,000,000 bond issue.

Each Airline shall have the right and privilege to operate an air transportation system at the Airport, including the use, in common with others, of certain areas and facilities available for common use, subject to rules and regulations promulgated by the City and further subject to the payment of fees and charges.

Flight Fees for Landing of Aircraft

Each Airline shall pay the City a Flight Fee for each separate landing (with certain minor exceptions, such as touch-and-go operations) at the Airport of an aircraft operated by such Airline.

Flight Fee Revenue Requirements

The Flight Fee Revenue Requirements for any fiscal year during which any Approved Revenue Bonds are outstanding shall mean the excess of Airport Expense for such year over the Revenues (exclusive of all Flight Fees payable for such fiscal year by Airline Parties by reason of fee landings or by application of rentals for passenger ramp areas leased to any Airline as payment on account thereof) for such year under the Ordinance. Airport Expense for any fiscal year, as defined in the Airport Use Agreement, includes:

(a) operation and maintenance expenses, including full provision for all accounts receivable uncollected 30 days after due date,

(b) interest and depreciation on the City's investment in the Airport (other than Government Grants in Aid or proceeds from the sale of Approved Revenue Bonds),

(c) the sum to be deposited in the Reserve Maintenance Account, and

(d) an amount equal to 1.25 times the Principal and Interest Requirements (as such term is defined in the Ordinance) on Approved Revenue Bonds outstanding at the beginning of such fiscal year, and any premium paid on the redemption of such Bonds on July 1 of such fiscal year and January 1 of the succeeding fiscal year or the premiums paid on such Bonds purchased during such fiscal year in the open market or by tender.

Flight Fee While Any Approved Revenue Bonds are Outstanding

During each fiscal year the Flight Fee payable to the City for each fee landing of an aircraft shall be such amount per each 1,000 lbs. of the approved maximum landing weight of such aircraft as equals the quotient obtained by dividing (a) the Flight Fee Revenue Requirements for the fiscal year by (b) the number of thousands of pounds of the aggregate approved maximum landing weight of all aircraft operated by all Airline Parties and landed in fee landings, both as estimated by the Airport Consultant prior to January 1 and July 1 of each year.

Deficiency in Flight Fees While Any Approved Revenue Bonds are Outstanding

In the event that in any fiscal year the Revenues for such fiscal year (excluding any Flight Fee deficiency for such fiscal year) shall be less than the amount of Airport Expense, the City Comptroller shall, promptly, but not later than January 15, after such fiscal year, furnish to Airlines an estimate of the Revenues and Airport Expense for such year, including an estimate as to whether or not any Flight Fee deficiency exists for such year, and each Airline shall pay its pro rata share of any Flight Fee deficiency for such year shown by such estimate. In the event the Flight Fee deficiency for any fiscal year shown in the audited statement exceeds the Flight Fee deficiency shown in the estimate of the City Comptroller, then each Airline shall pay its pro rata share of such excess.

Minimum Flight Fee

Notwithstanding the foregoing provisions, the minimum Flight Fee payable shall at no time be less than $0.06 per each 1,000 lbs. of the approved maximum landing weight of each aircraft.

Aircraft Parking Fee

City may charge Airline fees for parking its aircraft in public parking areas in excess of the free period allowed therein and Airline shall pay City a stipulated fee for overtime parking of its cargo aircraft in a public cargo ramp area or its passenger aircraft in a public passenger ramp area.

Payment of Fees

City shall, within 15 days following the end of each month, furnish Airline a statement of any Flight Fee and Aircraft Parking Fees payable by it for such month. The amount payable by Airline for any month shall be due and payable on the last day of the next succeeding month.

City shall, as promptly as practicable, furnish to Airline a statement of the amount payable as Airline's pro rata share of any Flight Fee deficiency, which shall be due and payable within 20 days after such statement is mailed or delivered by City.

Under the Leases of Terminal Facilities contemporaneously entered into between City and certain Airlines, City leases to each of such Airlines designated ramp areas and each such Airline agrees to pay certain rentals therefor. The ramp rental payable by each such Airline is the equivalent of a commitment of payment by such Airline of a minimum amount of Flight Fees. Therefore, any amount payable by such Airline as rental for any month for passenger ramp areas shall be applied, as provided in the Airport Use Agreement, against amounts payable by such Airline under such Agreement for Flight Fees.

Parking Facility Lease

The City has entered into a lease with the 13 airlines, noted on page 15 as having executed the Airport Use Agreement (with the exception of the Flying Tiger Line, Inc.) for certain premises at the Airport and agreed to cause a facility for the parking of motor vehicles to be constructed thereon. Airlines have appointed the City as their agent to operate the facility. This facility is in process of construction utilizing proceeds of a previous bond issue. Annual rental payments of $5,186,357 begin in 1973. The annual revenue derived by the City from operation of the premises, after deduction of operation and maintenance expenses or concessionaires' approved expenses and compensation and leasehold and other property or use taxes, if any, levied or assessed against the concessionaires' or other occupants' interests in the premises, is to be credited against the rental payments.

SUMMARY OF GENERAL COVENANTS APPLICABLE TO AIRPORT USE AGREEMENT AND LEASES

Rentals

The rentals stipulated in the various Leases are payable for the respective periods therein provided.

The City and the Lessees, under the various Leases agree that so long as any Approved Revenue Bonds are outstanding, the rentals stipulated therein shall not be reduced. All amounts payable to the City under the terms of the Use Agreement and the Leases shall be paid at the office of the City Comptroller, and if not paid when due, shall bear interest at the rate of 7% per annum until paid.

Ingress and Egress

Subject to rules and regulations promulgated by the City, the Lessees shall have the rights and privileges over the Airport of ingress to and egress from the demised premises, as set forth in detail in the respective Leases, including the right to install, maintain, use and operate facilities and equipment on the Airport and the right to connect the leased premises with any taxiways, roadways, water lines, sewer lines, drainage ditches and utility lines being furnished by the City.

Construction, Maintenance and Repair by Lessee

Lessee may construct or install, at its own expense, any improvements, facilities and equipment, in any premises leased to it for its sole exclusive use. Lessee, together with other Lessees of such premises, may construct or install at its or their own expense, any buildings, improvements, facilities and equipment in any premises leased to it and such Lessees for their common use. All such construction or installation shall be made only after obtaining the approval of the Commissioner of Public Works of the plans and specifications and obtaining requisite building or construction licenses or permits. All buildings and permanent improvements constructed or installed by Lessee shall become the property of the City upon completion of construction. Lessee shall keep and maintain all buildings, improvements and facilities and additions thereto, constructed or installed by Lessee on the leased premises in good condition and repair.

Lessee shall keep buildings and improvements constructed by the City on leased premises in the Hangar or Cargo Areas or a part of the Fueling System in good condition and repair, subject to the provisions herein summarized under the subheading "Insurance After Completion of Construction."

Lessee shall keep the leased premises, all construction completed and installations made by City, and all construction and installations made by Lessee in a sanitary and sightly condition, and shall comply with all applicable health and safety requirements.

Use of Premises on Behalf of or by Others

Any of the premises leased to a Lessee may also be used, in whole or in part, by Lessee on behalf of or in conjunction with any other Airline Party or Parties in connection with the conduct of air transportation to the same extent as Lessee is entitled to use such premises in its own behalf. Lessee shall also be entitled to sublease any of such premises, in whole (Subject to the prior approval of City) or in part, to any other Airline Party or Parties.

In case of any use of any of such premises by Lessee on behalf of or in conjunction with any other Airline Party or Parties, or in the case of any sublease of any of such premises, Lessee shall remain liable for its obligations under said Lease.

Notwithstanding the foregoing, no use of any of the premises leased may be made by Lessee on behalf of or in conjunction with any other Airline Party or Parties, and no sublease of any part of such premises may be made by Lessee, except in each case with the consent of the Commissioner of Aviation, if such use or sublease involves payment to Lessee by such other Airline Party or sublessee of an amount greater than Lessee's expenses.

Maintenance and Operation by City

City shall maintain and keep in good condition and repair all buildings, roadways, taxiways, water lines, sewer lines, drainage ditches, additions, improvements, facilities and equipment now or hereafter provided by City for common use, serving any leased premises but located outside the leased premises and will keep the insurable premises adequately insured.

City shall operate the Airport in accordance with the rules and regulations and with standards and ratings for airports of similar size and character issued by the Federal Aviation Administration. City shall also operate the Airport in a manner so as to produce revenues of a nature and amount which would be produced by a reasonably prudent operator.

City shall use its best efforts in the selection of an operator for the purpose of providing transportation service to and from the Airport of passengers and their baggage in a satisfactory and efficient manner.

City shall use its best efforts to keep the Airport open and in operation for landings and take-offs of aircraft of any type using facilities similar to those at the Airport. City shall maintain order at the Airport.

Covenant Against Liens

Lessees shall keep the leased premises and the buildings, improvements and facilities free and clear of any and all liens in any way arising out of the action, or use thereof by Lessee; provided, however, that Lessee may in good faith contest the validity of any lien.

Rules and Regulations

Each Lessee or Airline Party shall observe and obey all rules and regulations governing the conduct and operation of the airport, promulgated from time to time by the City, which are reasonably required for the prudent and efficient operation of the Airport and are not inconsistent with the reasonable exercise by Lessee or Airline Party of any right or privilege granted to it under any agreement between said Lessee or Airline Party and City relating to the Airport, nor inconsistent with safety nor with the rules and regulations of any Federal or State agency having jurisdiction with respect thereto, nor inconsistent with the procedures prescribed or approved from time to time by the Federal Aviation Administration or any other governmental authority having jurisdiction over operations at the Airport.

City, however, shall have no control over the rates, fares or charges that any Lessee or Airline Party may prescribe in connection with its conduct of an air transportation business.

Liability Arising from Act of Lessees and Airline Parties

Each Lessee or Airline Party shall, at its own expense, keep in force insurance of the following types and in not less than the following amounts, insuring Lessee or Airline Party and City against all liabilities for accidents arising out of or in connection with Lessee's or Airline Party's use and occupancy of and operations at the Airport, except when caused by City's negligence alone or jointly with any person other than such Lessee or Airline Party, its agents, contractors and subcontractors, and shall furnish to City certificates evidencing such insurance, naming City as an additional assured thereunder, subject to certain limitations in respect of City's negligence, to-wit:

Aircraft Public Liability Insurance..............	$ 100,000	per person
	$1,000,000	per accident
Aircraft Property Damage Insurance..............	$ 200,000	per accident
Comprehensive Public Liability Insurance.........	$ 100,000	per person
	$ 250,000	per accident
Comprehensive Property Damage Insurance..........	$ 100,000	per accident

The foregoing requirements for insurance apply to the Use Agreement and all Leases except the Fueling System Lease in which the type and limits are as follows:

Comprehensive Public Liability Insurance........	$ 200,000	per person
	$5,000,000	per accident
Comprehensive Property Damage Insurance.........	$5,000,000	per accident

Insurance During Construction

The City shall, until the date of completion of Improvements, as certified by the Consulting Engineer, keep in force public liability and property damage insurance, insuring City, in the amounts specified in the Use Agreement and the Leases and also builder's risk insurance. City may cause such insurance to be effected in whole or in part by the contractors performing the construction work, but, in any event, the cost of such insurance shall be deemed a part of the cost of construction.

Insurance After Completion of Construction

A Lessee is required to bear the cost of insurance maintained by the City on Improvements (excluding the Terminal facilities) following construction thereof, consisting of a so-called "fire and extended coverage policy or policies," not exceeding, without consent of such Lessee, 80% of the full insurable value thereof. All such insurance policies shall name City and such Lessee as insureds, and shall provide that proceeds of such insurance shall be payable to City and such policies shall be deposited with the City Comptroller.

Should any building or improvement constructed by the City on the premises leased to a Lessee be damaged or destroyed on or after the date upon which the completion of the buildings and improvements is certified by the Consulting Engineer, and if any insurance proceeds are payable by reason thereof, City shall immediately after such damage or destruction cause plans and specifications and an estimate of cost for repairing, replacing or reconstructing the damage or destroyed property to be prepared. Lessee shall be consulted for its suggestions before any such plans and specifications are approved. Such insurance proceeds shall be applied, as promptly as practicable, to the repair, replacement or reconstruction of the damaged property. If such proceeds are more than sufficient for such purpose, the balance remaining shall be transferred to the credit of the Sinking Fund Account. If such insurance proceeds are insufficient for such purpose, the deficiency shall be supplied by City from any moneys in the Reserve Maintenance Account.

Abatement of Rentals in Event of Closing

In the event that the Airport shall be closed for any period of time by an order or direction of City or any other governmental authority or agency, or by any order or direction of any court of competent jurisdiction, while any Approved Revenue Bonds are outstanding, then to the extent, but only to the extent, that sufficient moneys are then held to the credit of the Emergency Reserve Account under the Ordinance, the rentals provided in the Leases as payable by Lessees shall abate for the period of such closing.

In the event the Airport shall be so closed for the landing or taking off of all turbo jet powered aircraft, which at the time are landing or taking off, in the course of normal operations, at one or more airports having facilities similar to those at the Airport, but shall not be closed to the landing or taking off of other aircraft operated by any Airline Parties, while any Approved Revenue Bonds are outstanding, then 50% of the rentals payable by Lessees under the Leases shall abate for the period of such closing, but in no event for more than 6 months for any single closing, in any fiscal year, to the extent but only to the extent that sufficient moneys are then held to the credit of the Emergency Reserve Account.

Termination by City

City may terminate tne Leases or the Airport Use Agreement by giving sixty (60) days advance notice upon or after the happening and during the continuance of any one of the following events:

(a) The filing by Airline of a voluntary petition in bankrupcy.

(b) The institution of proceedings in bankruptcy against Airline and the final adjudication of Airline as a bankrupt pursuant to such proceedings.

(c) The taking by a court of competent jurisdiction for a period of sixty (60) days of all or substantially all of Airline's assets pursuant to proceedings brought under the provisions of any Federal reorganization act.

(d) The appointment of a receiver of all or substantially all of Airline's assets and Airline's failure to vacate such appointment within sixty (60) days thereafter.

(e) The assignment by Airline of its assets for the benefit of its creditors.

(f) The abandonment by Airline of its conduct of air transportation at the Airport.

(g) The default by Airline in the performance of any covenant or agreement required to be performed by Airline and the failure of Airline to remedy such default, or to take prompt action to remedy such default, within a period of sixty (60) days after receipt from City of notice to remedy the same.

Termination by Airline

Airline may not terminate its Leases or the Airport Use Agreement so long as any Approved Revenue Bonds are outstanding.

* As defined in the ordinance.

(1) Includes certain capital expenditures for improvements and engineering. While the Bond Ordinance does not permit the use of operating revenues for capital improvements or other expenditures not directly related to the operation of the Airport, the Airlines' Representative has agreed to this practice which has the effect of increasing flight fee requirements.

(2) Actual deposits made to the Reserve Maintenance and Emergency Reserve Accounts. This does not include interest earned on investments in the two accounts. By ordinance such interest remains in these accounts and does not effect the amount to be transferred to said accounts in any fiscal year from Revenues.

(3) The Reserve Maintenance Account became fully funded in 1967. Subsequent use of funds for major repairs has necessitated further contributions.

Under the terms of the Airport Use Agreement entered into between the City and various Airlines, the Airlines covenant to use O'Hare Airport and agree to pay, in each fiscal year, sufficient Flight Fees for their fee landings, so that with revenues derived from fixed rentals payable under the Leases, from concessions and from any other source, the gross revenues at the Airport will equal the sum of Operation and Maintenance Expenses, the amounts to be allocated to the Reserve Maintenance and Emergency Reserve Accounts and an amount equal to 1.25 times the Principal and Interest Requirements, as defined in the Ordinance, on the Approved Revenue Bonds outstanding at the beginning of each fiscal year, and the amount of any premiums paid on such Bonds retired by January 1 of the succeeding fiscal year.

SUMMARY OF CERTAIN PROVISIONS OF BOND ORDINANCE

The following information is summarized from the Ordinances adopted by the City Council on December 29, 1958 and on February 16, 1959, (both of which Ordinances are herein sometimes referred to as the "Ordinance") and from the Supplemental Ordinances adopted by the City Council on February 1, 1961, July 13, 1962, July 21, 1967, June 26, 1968, March 25, 1970, and August 30, 1972. Copies of the Ordinances and Supplemental Ordinances are on file with the City Comptroller and the Depositary.

In accordance with the provisions of the Act, the Ordinance authorized the issuance by the City of $120,000,000 Chicago-O'Hare International Airport 4-3/4% Revenue Bonds, Series of 1959. The Supplemental Ordinances, in accordance with the provisions of Section 2.15 and Section 2.1ʳ of the Ordinance, authorized $25,000,000 Chicago-O'Hare International Airport 4-3/4% Revenue Bonds, Series A of 1961, $10,000,000 Revenue Bonds, Series B of 1961, of which $4,000,000 4-1/4% Bonds were sold, $5,000,000 4-1/2% Revenue Bonds, Series of 1967, $18,000,000 5% Revenue Bonds, Series of 1968, $52,000,000 6.80% Revenue Bonds Series of March, 1970, and $8,000,000 6.00% Revenue Bonds Series of1972; of which there was a total of $182,554,000 outstanding at August 30,1972 without considering the new financing. Series A of 1961 and Series B of 1961 Bonds were issued under Section 2.15 of the Ordinance to finance the additional costs of the improvements for which the Series of 1959 Bonds were originally issued. The Series of 1967 Bonds, the Series of 1968 Bonds and the Series of March, 1970 Bonds were issued under Section 2.16 of the Ordinance for additional improvements. The Series of 1972 Bonds are being issued under Section 2.16 of the Ordinance for other additional improvements. The Ordinance designated The First National Bank of Chicago, Chicago, Illinois as Depositary, Paying Agent and Registration Agent. The Bonds, subject to the provisions for registration and transfer contained in the Ordinance, shall have all the qualities of negotiable instruments under the laws of the State of Illinois and in denomination of $5,000 may be registered as to principal only or as to principal and interest in the denomination of $25,000 or more.

SECURITY FOR THE BONDS

In accordance with the provisions of the Ordinance and the Supplemental Ordinances the above Bonds authorized and issued thereunder rank on a parity and are secured by a charge and lien on, and are payable solely from the Bond proceeds and Net Revnues derived from the operation of the Airport and from any service thereof as set forth in the Ordinance. All such Net Revenues and funds are exclusively and irrevocably pledged to and constitute a trust fund for the security and payment of the principal of and the interest and any redemption premium on the Bonds and any additional Bonds issued under the Ordinance.

SURETY BONDS

The City will take out and maintain or cause to be provided fidelity insurance or a fidelity bond or bonds covering all employees and officials of the City who receive or handle Revenues of the Airport; in the case of employees in an amount sufficient to cover the maximum amount of Revenues so received or handled by each such employee during any calendar week.

RECEIPT, DEPOSIT AND ALLOCATION OF REVENUES

The Airport shall be operated on a fiscal year basis beginning January 1. All Revenues derived from the operation of the Airport and for any service rendered by the City in the operation thereof shall be held by the City and the Depositary in trust for the benefit of the holder or holders of the Bonds issued under the Ordinance and the coupons appertaining thereto and shall be allocated and applied solely to the uses and purposes set forth in the Ordinance and shall be accounted for separate and apart from all other moneys, funds or other resources of the City.

Chicago-O'Hare International Airport Revenue Fund

The City covenants and agrees that all Revenues, including all rents or other charges shall be received, deposited and accounted for through a special fund created for such purpose and designated Chicago-O'Hare International Airport Revenue Fund (hereinafter referred to as the "Revenue Fund"). All moneys paid into the Revenue Fund shall be deposited by the City Treasurer with the Depositary. All Revenues so deposited shall be disbursed by warrants on the City Treasurer, signed by the Mayor and countersigned by the City Comptroller and all such moneys accounted for through the Revenue Fund during each fiscal year, shall be allocated first to Operation and Maintenance Expenses and then in the following order of priority to the following respective special accounts:

Interest Account
Debt Service Reserve Account
Sinking Fund Account
Reserve Maintenance Account
Emergency Reserve Account

Operation and Maintenance Expenses

The City Comptroller shall draw warrants on the City Treasurer on the Revenue Fund to pay for operation and maintenance of the Airport, but such warrants drawn with respect to any fiscal year shall not exceed the amount budgeted by the City for Operation and Maintenance Expenses for the then current fiscal year, unless such warrants cover expenditures authorized by a two-thirds vote of all members of the City Council. In addition thereto, a reasonable reserve for the next ensuing year (not in excess of one quarter of the amount budgeted for the current year) may be retained in the Revenue Fund.

Allocation of Remaining Revenues

The City Comptroller shall from time to time direct the Depositary to allocate the remaining available Revenues in the following manner and order of priority:

First: Interest Account. There shall be allocated to such Account an amount equal to any unpaid interest then due on all outstanding Bonds, plus the interest to become due thereon on the next ensuing interest payment date.

Second: Debt Service Reserve Account. Beginning with the fiscal year commencing January 1, 1962, to the Debt Service Reserve Account an amount (subject to the limitations hereinafter referred to)in each fiscal year until there shall be in this account an amount equal to two year's interest requirements on all Bonds outstanding, all moneys in this Account to be retained by the Depositary and invested as in this Ordinance provided. All moneys in this Account shall be used and withdrawn to the extent necessary for the purpose of paying the Interest, Sinking Fund payments and the principal of the Bonds including premium for prior redemption thereof in the event no other funds are available for such purposes.

Whenever the deposits in the Debt Service Reserve Account exceed two years' interest on all Bonds outstanding, such excess shall be transferred to the Sinking Fund Account. Any moneys withdrawn to meet Interest and Sinking Fund requirements shall be replaced out of the first money available therefor.

The balance in the Debt Service Reserve Account on December 31, 1971 was $15,883,064. This represents two years interest requirements on the outstanding principal amount of Series of 1959 and Series A & B of 1961 Bonds, and requirements to December 31, 1971 on the Series of 1967, 1968 and 1970 Bonds. The Additional amount to be allocated to the Debt Service Reserve Account in any fiscal year with respect to Bonds issued under Section 2.15 or Section 2.16 shall not exceed the amount provided for in the Supplemental Ordinance authorizing the issue of such Bonds. Upon the issuance of Bonds of the Series of 1972, the maximum amount to be allocated to the Debt Service Reserve Account for said issue in any fiscal year shall not exceed $316,808.

Third: Sinking Fund Account. There shall next be allocated to the Sinking Fund Account, in each fiscal year, an amount sufficient to retire the principal amount of Bonds, as provided in the Ordinance and Supplemental Ordinances, by January 1 of the succeeding fiscal year, which amount is referred to therein as the Minimum Sinking Fund Payment. The minimum annual payments to be made to the Sinking Fund Account, as provided in the Ordinance and Supplemental Ordinances are calculated, for each series of Bonds outstanding thereunder, as sufficient to retire all Bonds of such series by its maturity date.

Fourth: Reserve Maintenance Account. In each fiscal year to the Reserve Maintenance Account, out of the balance remaining after making any required deposits in such year to the Interest Account, the Debt Service Reserve Account and the Sinking Fund Account, the sum of $1,160,000 until there shall have been accumulated in the Reserve Maintenance Account the sum of $4,833,333, provided, however; that if less than the amount required to be deposited in this Account in any fiscal year shall be so deposited, the requirement therefor shall nevertheless be cumulative and the amount of such deficiency shall be added to the amount required to be deposited in this Account in each fiscal year thereafter, until such time as such deficiency shall have been made up or until there shall have been accumulated in this Account the sum of $4,833,333.

If additional Bonds are issued under the respective provisions of the Ordinance, the applicable limits as to the maximum amount which shall be deposited in any fiscal year and the maximum amount which shall be accumulated in said Account shall be increased in accordance with the provisions contained in the Ordinance.

Moneys held for the credit of the Reserve Maintenance Account shall be held as a reserve for the purpose of paying the cost of major repairs, renewals and replacements of terminal buildings, landing areas, aprons, and related facilities, equipment or otherwise, at the Airport, provided the making of such repairs, renewals or replacements is approved by the Consulting Engineer, as evidenced by his certificate, and in the case of an insufficiency of moneys to pay the Operation and Maintenance Expenses, all expenses chargeable as Operation and Maintenance Expenses under the terms of the Ordinance; and shall be disbursed only for such purposes, except as otherwise provided in the Ordinance.

If at any time the amount in the Interest Account and the Debt Service Reserve Account shall be insufficient for the purposes of paying the interest on the bonds as such interest becomes due, or for the purpose of making any of the required payments to the Sinking Fund Account, then the City shall transfer from the Reserve Maintenance Account to the Interest Account, Debt Service Reserve Account or Sinking Fund Account, as the case may be, an amount sufficient to make up any such deficiency.

Any moneys in the Reserve Maintenance Account which shall be used or transferred as aforesaid, shall be restored by the City from the first available moneys in the Revenue Fund, subject to the same conditions as are hereinabove provided for deposits to the credit of this Account.

Fifth: Emergency Reserve Account. There shall be allocated to the Emergency Reserve Account out of the balance remaining, after making the deposits to the respective accounts hereinabove referred to, an amount in each fiscal year equal to the sum of the amounts included in Airport Expense as defined in the Airport Use Agreement for such year on account of the depreciation and interest on City investment in the Airport, other than from Government Grants in Aid or Approved Revenue Bond proceeds.

Moneys held to the credit of the Emergency Reserve Account shall be used to the extent provided in the Ordinance in lieu of abated rentals, and to the extent so used shall be treated as Revenues, for any period of time during which the Airport may be closed, by any order or direction of City or any other governmental authority or agency, or by any order or direction of any court of competent jurisdiction, for the landing or taking off of all turbo jet powered aircraft operated by Airline Parties, as defined in the Airport Use Agreement, which at the time are landing or taking off, in the course of normal operations, at one or more airports having facilities similar to those at the Airport. Moneys to the credit of the Emergency Reserve Account shall be applied monthly and be so used to the aggregate extent, and only to such extent, that agreements between the City and such Airline Parties provide for the abatement of rentals in the event of such closing.

Moneys held to the credit of the Emergency Reserve Account shall also be used at any time for the purpose of making required deposits to the Interest Account and Sinking Fund Account when there are no other funds available for such deposits.

Sixth: To the extent that Revenues accrued during each fiscal year, as shown in the audited statement of the Independent Certified Public Accountants, exceed Airport Expense for such fiscal year, as defined in the Airport Use Agreement, such excess shall be considered deferred income and as Revenues of the next succeeding year for all purposes of the Ordinance.

All Revenues accrued during the fiscal year for which such audited statement is rendered, which Revenues have not been allocated for Operation and Maintenance Expenses, nor deposited or allocated for deposit in the several Accounts referred to in First through Fifth inclusive above, nor considered Revenues of the next succeeding fiscal year, shall be allocated to the Sinking Fund and deposited therein as soon as practicable.

Notwithstanding the foregoing, in any fiscal year in which the minimum Flight Fee is in effect as provided in the Airport Use Agreement, all Revenues accrued during such fiscal year in excess of the required allocations to Operation and Maintenance Expenses and the Accounts provided for in First through Fifth inclusive, above shall be allocated to the Sinking Fund.

If and when there are sufficient funds in the Interest Account, Debt Service Reserve Account and Sinking Fund Account at any time to call and redeem all of the outstanding Bonds at the next succeeding redemption date, said funds shall be used for that purpose.

If the City shall comply with all other provisions of the Ordinance relating to the allocation of Revenues, the fact that the total deposits to be credited to the Sinking Fund Account, the Reserve Maintenance Account or the Emergency Reserve Account in any fiscal year shall be less than the amount required will not constitute an event of default under the provisions of the Ordinance.

SECURITY FOR DEPOSITS

The City Comptroller is authorized and empowered to take all necessary steps to require and secure from each Depositary, Paying Agent and Fiscal Agent, security, if any, required by law for all Revenues and other funds deposited with or held by such agents under the Ordinance.

INVESTMENT OF REVENUE

All moneys held by the Depositary in the Revenue Fund may be invested in direct obligations of the United States of America which shall mature or which shall be subject to redemption by the holder thereof at the option of such holder prior to the date such funds shall be required for the payment of Operation and Maintenance Expenses or for allocation to any Accounts. All moneys held by the Depositary to the credit of the Interest Account and Sinking Fund Account shall be invested, insofar as may be practicable, in direct obligations of the United States of America which shall mature or which shall be subject to redemption by the holder thereof at the option of such holder not later than fifteen days prior to the date such funds shall be required for the purposes of the respective Accounts. Moneys held by the Depositary for the credit of the Debt Service Reserve Account, Reserve Maintenance Account and Emergency Reserve Account shall be invested in direct obligations of the United States of America which shall mature or which shall be subject to redemption by the holder thereof at the option of such holder not later than five years from the date of purchase thereof.

Obligations purchased as an investment of moneys in the Revenue Fund or any Account named in the preceding paragraph shall be deemed at all times to be a part of such Fund or Account. The interest accruing thereon and any profit realized or loss resulting from the investment of moneys in the Reserve Maintenance Account or Emergency Reserve Account shall be, respectively, credited or charged to such Fund or Account, notwithstanding the fact that the amounts credited to the Reserve Maintenance Account exceed the maximum provided by the Ordinance. Interest accruing on and any profit realized from any investment of moneys in the Interest Account, Debt Service Reserve Account, Sinking Fund Account and the unallocated portion of the Revenue Fund shall be credited to the unallocated portion of the Revenue Fund and allocated as Revenues in the order of priority provided in the Ordinance and any loss resulting from any such investment shall be deemed an Operation and Maintenance Expense and be restored to such Accounts or Fund from the first available Revenues.

CUSTODY AND APPLICATION OF PROCEEDS OF BONDS

Disposition of Bond Proceeds

The Supplemental Ordinance authorizing the issuance of the Series of 1972 bonds provides that the proceeds received by the City for sale of such bonds shall be deposited with the Depositary in trust and there are created three special accounts to be designated respectively "Pedestrian Tunnels and Hotel Access Road Construction Account - 1972", "Addition to Heating and Refrigeration Building Account - 1972", and "Additions and Modification of Fueling System Accounts - 1972", and there shall be deposited in the Pedestrian Tunnel and Hotel Access Road Construction Account - 1972 an amount equal to 38.91% of the proceeds from the sale of $8,000,000 of bonds; there shall be deposited in the Addition to Heating and Refrigeration Building Account - 1972 an amount equal to 48.52% of the proceeds from the sale of bonds and there shall be deposited in the Additions to and Modification of Fueling System Account - 1972 an amount equal to 12.57% of the proceeds from the sale of bonds. Disbursements from said accounts shall be made in the same manner as disbursements are required to be made by Section 3.01 of the Ordinance.

Proceeds received by the City from the sale of Bonds issued for additional improvements and extensions to the Airport pursuant to the provisions of Section 2.16 of the Ordinance shall be applied by the City in the manner and for the purposes provided in the Supplemental Ordinance authorizing such Bonds.

In accordance with Section 3.01 of the Ordinance, all transfers or disbursements from the Construction Fund shall be made by warrants on the City Treasurer signed by the Mayor and countersigned by the City Comptroller and shall be accompanied by a statement by the Commissioner of Public Works which shall include with respect to each payment:

(a) Item number thereof.

(b) Name of person, firm or corporation to whom payment is due.

(c) Amount to be paid and the Account to which the item is to be charged.

(d) A statement that the obligations in the specified amounts have been incurred by the City; that each item thereof is a proper charge against the Construction Fund and that it has not been paid.

(e) That there has not been filed with or served upon the City any notice of any lien, right to lien, or attachment upon or claim affecting the right to receive payment of any of the moneys payable to any of the persons, firms or corporations named in such order which have not been released or will not be released simultaneously with the payment of such obligations, and in the event that any assignment of right to receive payment has been made and notice thereof has been given to the City and the City has accepted such assignment, the order directing payment shall recite that fact and direct the payment to be made to assignee thereof as shown by the records of the City.

In addition, for any payment from the Construction Fund for work done in connection with the construction of any improvements there shall be an accompanying certificate executed by the Consulting Engineer of the character required by the Ordinance.

Investment of Bond Proceeds

The funds to the credit of the Construction Funds shall, as nearly as may be practicable, be continually invested and re-invested in direct obligations of the

United States of America which shall mature or which shall be subject to redemption by the holder thereof at the option of such holder not later than the respective dates as estimated by the City Comptroller and approved by the Consulting Engineer when such moneys will be required for the purposes intended. It shall be the duty of the City Comptroller to file with the Depositary from time to time the estimated dates when such funds will be required as approved by the Consulting Engineer and to direct the Depositary to invest the moneys to the credit of the Construction Fund.

Obligations so purchased as investments shall be deemed at all times a part of the Construction Funds and interest accruing thereon and any profit realized or any loss resulting from such investments shall be respectively credited or charged to the respective Construction Accounts.

PURCHASE AND REDEMPTION OF BONDS

Moneys in the Sinking Fund Account shall be applied as rapidly as possible to the retirement of Bonds by purchase in the open market or by tender at prices not to exceed the redemption price of such Bonds on the next redemption date. The retirement of Bonds in any fiscal year shall be prorated between the various series of bonds issued pursuant to the provisions of Section 2.02, Section 2.15 or Section 2.16 of the Ordinance in proportion to the respective Minimum Sinking Fund payment for each series for such fiscal year.

If there is $50,000 or more in said Account seventy days prior to any interest payment date on which Bonds are redeemable, such funds shall be used to redeem Bonds on such redemption date.

COVENANTS AS TO RENTS, FEES, RATES AND OTHER CHARGES

The City covenants that it will fix and keep in effect rents, fees, rates and other charges for the use of the Airport including any services rendered by the City in the operation thereof, that from time to time will be adjusted, in order that the Revenues of the Airport will be sufficient at all times to provide funds for the payment of the cost of operation and maintenance and thereafter to make the required deposits to each of the following accounts: (a) the Interest Account; (b) the Debt Service Reserve Account; (c) the Sinking Fund Account; (d) the Reserve Maintenance Account; and (e) the Emergency Reserve Account. Provided, however, that so long as any Bonds issued pursuant to Section 2.02 or Section 2.15 of the Ordinance shall be outstanding, such schedule shall in each fiscal year be sufficient to produce together with rents and other available Revenues, Net Revenues of not less than (i) one and twenty-five hundredths times the sum of the Principal and Interest Requirements for each such fiscal year of then outstanding Bonds issued pursuant to Sections 2.02, 2.15 or 2.16, plus (ii) amounts which may be required to be deposited in such year in the Reserve Maintenance Account and the Emergency Reserve Account and premiums paid on July 1 of such fiscal year and January 1 of the succeeding fiscal year on the redemption of such Bonds and premiums paid on such Bonds purchased during such fiscal year in the open market or by tender.

A deposit to the credit of the Sinking Fund Account in any fiscal year of an amount in excess of the Minimum Sinking Fund Payment for such fiscal year shall not reduce the required Minimum Sinking Fund Payment for any subsequent fiscal year or years; but any deficiency in the amount deposited to the credit of the Sinking Fund Account and the Reserve Maintenance Account in any fiscal year shall, as promptly as practicable, be added to the amounts required for the remaining fiscal years.

The City Covenants, that, so long as any Bonds issued under the provisions of the Ordinance are outstanding, it will not amend any Lease or Airport Use Agreement relating to the Airport, entered into by it which became effective immediately upon issuance of Bonds, Series of 1959, so as to reduce the fixed rentals, or the amount of Revenues which otherwise would be received from the application of the Flight Fee Formula or the Flight Fee deficiency formula, below those provided under any such Lease or Agreement.

ADDITIONAL BONDS

The Ordinance as supplemented provides that additional Bonds, ranking on a parity with the outstanding Airport Revenue Bonds may be issued for the following purposes and subject to the following conditions:

(i) Additional Bonds may be issued under the provisions of Section 2.16 of the Ordinance as supplemented for the purpose of constructing additional improvements and extensions to the Airport whenever the following conditions are met:

(a) The amounts required to be credited to the Interest, Debt Service Reserve, Sinking Fund, Reserve Maintenance, and Emergency Reserve Accounts up to the date of adoption of the Supplemental Ordinance authorizing such additional Bonds must have been credited to said Accounts.

(b) The Net Revenues of the Airport from all existing facilities and those proposed to be financed by such additional Bonds, as estimated by the Airport Consultant, in accordance with the provisions of the Ordinance, for each fiscal year, commencing with the first full fiscal year following the date of completion, as estimated by the Consulting Engineer, of the additional facilities then being financed, and ending not earlier than the last full fiscal year next preceding the maturity date of any outstanding Series of Bonds or Bonds issued pursuant to Sections 2.02 and 2.15, shall be not less than (i) one and twenty-five hundredths times the sum of the Principal and Interest Requirements for each such fiscal year of all Bonds then outstanding and the proposed additional Bonds, plus (ii) amounts which may be required to be deposited in each such year in the Reserve Maintenance Account and the Emergency Reserve Account.

(c) If at the time any Bonds issued pursuant to Section 2.02 or Section 2.15 are outstanding the rentals, from Leases in effect between the City and air transportation companies on the date of adoption of the Supplemental Ordinance authorizing such additional Bonds, shall, as determined in accordance with the provisions of the Ordinance, commencing with the first full fiscal year following the date of completion referred to in (b) above and ending not earlier than the last full fiscal year next preceding the maturity date of any Bonds issued under the provisions of Sections 2.02 and 2.15, be not less than one and ten-hundredths times the sum of the Principal and Interest Requirements for each fiscal year of all Bonds then outstanding and the proposed additional Bonds.

Such additional Bonds shall be designated "Chicago-O'Hare International Airport Revenue Bonds," with such further appropriate designation, shall be dated, bear such interest rate or rates payable January 1 and July 1 of each year, shall mature on January 1, and may or may not be subject to redemption prior to maturity, all as may be provided by the supplemental ordinance authorizing their issuance. Such additional Bonds must be due and payable not earlier than the maturity date of any then outstanding Bonds.

For the purpose of making the computations and estimates hereinabove provided for, the term "Principal and Interest Requirements for each such fiscal year" shall mean the following amounts, computed as nearly as practicable in accordance with standard amortization tables of equal annual payments to discharge a debt with interest, without regard to redemption premium:

(i) In the case of Bonds issued pursuant to Section 2.02, the amount which is required in each fiscal year to provide over a period of thirty-four fiscal years for the payment, when due, of the interest on such Bonds and for the retirement of all such Bonds by the end of such period;

(ii) In the case of any Bonds issued pursuant to Section 2.15, the amount which is required in each fiscal year to provide over a period of the lesser of thirty-four fiscal years or the number of full fiscal years between the date of delivery of such additional Bonds and the maturity thereof, for the payment, when due, of the interest on such Bonds and for the retirement of all such Bonds by the end of such period; and

(iii) In the case of any Bonds issued or to be issued pursuant to Section 2.16 for the purpose of constructing additional improvements and extensions, the amount which is required in each fiscal year to provide over a period commencing with the first full fiscal year beginning after the date, as estimated by the Consulting Engineer, of the completion of such additional improvements and extensions and ending with the last full fiscal year next preceding the maturity date of such Bonds, for the payment of the interest, when due, on such Bonds and for the retirement of all such Bonds by their maturity.

OTHER COVENANTS

The following are summaries of covenants of the City in regard to the subjects listed. Reference is made to the Ordinance for a complete list of covenants and their full details. The City agrees or covenants regarding each subject as follows:

Management

That in order to assure efficient management and operation of the Airport, and to assure the Bondholders that the same will be economically and efficiently operated on the basis of sound business principles, it will, while any of the Bonds are outstanding, operate and maintain the Airport under the direction of the Commissioner of Aviation or such other City department as the City Council may from time to time ordain.

Maintenance and Operation

That it will, at all times, use its best efforts to see that the Airport is operated and maintained in such manner that the operating efficiency thereof shall be of the highest character and so that all lawful orders of any governmental agency or authority having jurisdiction in the premises shall be complied with (provided the City shall not be required to comply with any such orders so long as the validity or application thereof shall be contested in good faith). The City also will, out of Revenues, from time to time, duly pay and discharge, or cause to be paid and discharged, all taxes, assessments or other governmental charges lawfully imposed upon the Airport or any part thereof, or upon the Revenues, when the same shall become due, as well as any lawful claim for labor, materials or supplies, which, if unpaid, might by law become a lien or charge upon the Airport, or which might impair the security of the Bonds.

Concessions

That it shall operate the Airport in a manner so as to produce revenues from concessionaires of a nature and amount which would be produced by a reasonably prudent operator of an airport.

Against Encumbrances or Sale of Airport Property

That it will not create or permit the creation of any mortgage, lien or pledge on any City-owned personal or real property or equipment, constructed, purchased or used in connection with the Airport and the operation thereof or upon any Revenues or other funds pledged or held under the Ordinance, except as security for all Bonds issued thereunder, and that it will not permit the sale, or other disposition of the Airport, or any part thereof, but the City may sell or dispose of property no longer required for the use of, profitable to, or for the best interest of the City's operation of the Airport.

The net proceeds from the sale of any such property acquired by funds derived from the sale of any Bonds issued pursuant to the Ordinance or from Revenues, as defined therein, shall be used for the purpose of replacing properties or equipment at the Airport, if necessary, or shall be deposited in the Sinking Fund Account during the period that such Bonds are outstanding.

Consulting Engineer and Airport Consultant

The City covenants that while any of the Bonds are outstanding, it will continuously employ a Consulting Engineer experienced in the field of construction and physical maintenance and operation of airports and facilities and an Airport Consultant experienced in the field of administration, maintenance and operation of airports and facilities thereof, each of whom shall have no financial or other interest in the ownership or operation of the Airport or any activity relating thereto, aside from their duties in their respective employed capacities. The Consulting Engineer and the Airport Consultant shall each be appointed by the Mayor, subject to approval of the City Council.

The Consulting Engineer shall inspect the Airport and make reports on the physical condition thereof and advise and make recommendations to the City with respect to the proper physical maintenance of the Airport. Copies of each such report and recommendation shall be sent not later than one hundred twenty days prior to the commencement of each fiscal year to the Commissioner of Aviation, and the Commissioner of Public Works.

The Airport Consultant shall inspect the Airport and make reports to the City including advice and recommendations regarding the proper administration, maintenance and operation of the Airport, revisions necessary in fees, rates and other charges and a recommended budget for operation and maintenance expenses of the Airport. Copies of each report and recommendation shall be sent not later than one hundred twenty days prior to the commencement of each fiscal year, to the Commissioner of Aviation, the Comptroller, the Commissioner of Public Works and the Budget Director. It shall be the duty of the Airport Consultant in the preparation of the recommended budget to advise and recommend with respect to the foregoing matters for the fiscal year preceding the year budgeted and the ensuing fiscal year. The Airport Consultant shall attend all public hearings on the budget and shall also make recommendations at least sixty days prior to January 1 and July 1 of each fiscal year as to fees for the landing of aircraft at the Airport during the six-month period commencing on each January 1 and July 1 so that the Revenues will meet the requirements of the Ordinance.

Budgets

The Budget Director, according to law, shall, prior to the beginning of each fiscal year, prepare and file with the City Clerk a preliminary budget of operation and maintenance expenses of the Airport and proposed capital expenditures for the ensuing fiscal year.

The City shall, after the receipt of the Budget Director's preliminary budget, prepare the budget ordinance in tentative form, which ordinance shall be made available to public inspection. At least one public hearing shall be held thereon before final adoption as the annual budget.

The City shall not incur expenses for operation and maintenance of the Airport in any fiscal year in excess of the reasonable and necessary amount thereof nor expend or obligate itself to expend any amount for such fiscal year in excess of the amount provided therefor in the budget for such fiscal year as finally adopted unless such expenditure is authorized by a two-thirds vote of the City Council; provided, however, the foregoing shall not be applicable to any provision for uncollectible accounts receivable.

Audits and Reports

That it will keep and provide accurate books and records of the total cost of Improvements, of all Revenues received and collected from the Airport and of all expenditures relating to the operation, maintenance and repair thereof. All such books and records shall be open at all times during business hours to the Depositary, to the Principal Underwriters and to the holder or holders of not less than ten per centum of the principal amount of Bonds then outstanding, or his or their representatives duly authorized in writing.

Within one hundred and twenty days after the close of each fiscal year, so long as any Bonds are outstanding, the City will prepare and file with the Depositary, Airport Consultant and the Principal Underwriters, a statement of the Revenues and expenditures of the Airport for such fiscal year and a balance sheet thereof, taken at the close of such fiscal year, accompanied by a certificate or opinion in writing of an Independent Certified Public Accountant of recognized standing selected by the City and satisfactory to the Depositary. A consolidated summary of such Revenues and of all expenditures and the balance sheet for the Airport shall be published by the City not later than one hundred and fifty days after the close of such fiscal year as provided in the Ordinance and copies of such summarized data, as so published, shall be deliv red to the Depositary and Principal Underwriters and mailed to the Holders of Bonds requesting copies. All reports and other documents required under the Ordinance shall be available for inspection by Bondholders at the office of the City Comptroller.

Insurance

In addition to the fidelity insurance or fidelity bonds previously referred to under the heading Surety Bonds on page 29, the City will take out and maintain or cause to be taken out and maintained public liability insurance, builders risk insurance and so long as any of the Bonds are outstanding a so-called "fire and extended coverage policy or policies" on City-owned property at the Airport, to the fullest extent obtainable, which coverage, however, need not exceed 80% of the full insurable value thereof.

All such policies shall be issued by a responsible insurance company or companies and shall name the City as an insured thereunder and such policies or certificates of such insurance shall be deposited with the City Comptroller.

The public liability insurance shall be in an amount of not less than $200,000 for injuries, including death, to any one person, and, subject to the same limitations for each person, in an amount of not less than $3,000,000 for injuries or death to two or more persons on account of any one accident in connection with the operation of the Airport.

Other details regarding the receipt and deposit of proceeds paid to the City for damage or destruction of City-owned property at the Airport or under other claims covered by insurance and the City's covenants regarding the application of any such insurance proceeds paid to the City are set forth in Section 6.07 of the Ordinance.

The City, in March of each year, shall deliver to the Depositary and mail to the Principal Underwriters a schedule signed by the City Comptroller of all insurance policies then in force relating to the Airport, including the names of the insurers, the amounts thereof and the property and risks covered thereby.

Whenever the City shall fail to take out or otherwise provide for any insurance required under the Ordinance (either as to class of risks or amount thereof) which in the discretion of the Depositary is obtainable at reasonable cost and upon reasonable terms, or is deemed by the Depositary, upon advice of an independent insurance counselor, to be necessary or desirable in the interests of the holders of the Bonds, the Depositary, in its discretion, may effect such insurance in the name of the City and bill the City therefor.

RIGHTS OF BONDHOLDERS

The Ordinance defines the events of default, which include the failure to pay interest or principal when due, with a 30-day grace period for default in the payment of interest, as well as the falure to observe any other of the City's covenants and agreements in the

Ordinance.

The Ordinance also provides that the Depositary appointed thereunder shall act as Trustee to represent the Bondholders in the matter of exercising and prosecuting on their behalf such rights and remedies as may be available to such holders under the provisions of the Bonds and the Ordinance as well as under the Act or other provisions of applicable law. The Depositary as Trustee may on its own initiative take such action as may seem appropriate to it, and upon the request in writing of the holders or registered owners of twenty per cent in principal amount of the Bonds then outstanding, and upon being furnished with satisfactory indemnity, shall take such action on behalf of the Bondholders as they may request.

Such action by the Trustee or by the holder or registered owners of any Bond may be by suit at law or proceeding in equity to compel the observance by the City or City Council of any contract, agreement or covenant made by the City, to compel the City to perform any duties required to be performed for the benefit of the Bondholders as provided in the Ordinance and the Act and, to enjoin the City from taking any action in conflict with any contract or covenant with the Bondholders; or by action or suit in equity to require the City Council and the City to account as if they were the trustee of an express trust, or enjoin any acts or things which may be unlawful or in violation of the rights of the Bondholders. However, no holder or registered owner of any Bond may institute suit for the appointment of any trustee in bankruptcy or receiver unless such holder or owner shall have given written notice of an existing default to the Trustee and furnished indemnity to the Trustee, and the Trustee shall have declined to take such action requested by the holders or registered owners of twenty per cent of the principal amount of the Bonds then outstanding. No remedy conferred thereby upon any holder of Bonds is intended however, to be exclusive of any other remedy but each such remedy is cumulative and in addition to every other remedy and may be exercised without exhausting and without regard to any other remedy conferred thereby. The Ordinance also appoints the Depositary as attorney-in-fact for the Bondholders.

MODIFICATION AND AMENDMENT OF THE ORDINANCE

The Ordinance and the rights and obligations of the City and of the holders and registered owners of the Bonds and coupons may be modified or amended at any time by ordinance supplemental thereto adopted by the City Council pursuant to the affirmative vote at a meeting of Bondholders, or with the written consent without a meeting, of the holders of 66-2/3% in principal amount of all of the Bonds then outstanding. No such modification or amendment shall extend the maturity of or reduce the interest rate on, or otherwise alter or impair the obligation of the City to pay the principal or interest or redemption premiums at the time and place and at the rate and in the currency provided therein of any Bond without the express consent of the holder or registered owner of such Bond, nor permit the creation by the City of any mortgage or pledge, or lien on the Airport, or upon any Revenues or other funds pledged or held thereunder, nor reduce the percentage of Bonds required for the affirmative vote or written consent to an amendment or modification, nor, without the written assent thereto, modify any of the rights or obligations of the Depositary, the Fiscal Agent or any Paying Agent at the time acting thereunder.

EXEMPTION FROM TAXATION

In the opinion of counsel named below, interest on these Bonds is exempt from all Federal income taxes under existing statutes, regulations and court decisions, except interest on any Bond for any period during which such Bond is held by a substantial user of the facilities financed by these Bonds or by a related person as defined in Section 103 (c) of the Internal Revenue Code of 1954.

APPROVAL OF LEGAL PROCEEDINGS

All legal proceedings in connection with the authorization and issuance of the Bonds by the City are subject to approval of Messrs. Chapman and Cutler, Bond Counsel. Copies of the approving opinions of Counsel will be available at the time of delivery of the Bonds.

A suit was instituted in Circuit Court of Cook County, County Department, Chancery Division, entitled Village of Bensenville et al vs City of Chicago, et al, 70CH3184, wherein five municipalities and eight individuals sued the City of Chicago and all of the airlines serving O'Hare International Airport to enjoin the expansion of O'Hare (all plaintiffs) and for special damages (individual plaintiffs only) based upon a claim of nuisance arising out of air and noise pollution. The Honorable Nathan M. Cohen, Judge of the Circuit Court of Cook County dismissed this entire suit on October 29, 1971 on the motions of the City of Chicago and the airline defendants. Although the municipal plaintiffs have taken an appeal to the Illinois Appellate Court only as to the City, (Docket No. 57070) but not the airlines, the matter of money damages has been disposed of favorably to the City with the dismissal of original action and the failure by the individual plaintiffs to file an appeal from the dismissal of those counts. It is the opinion of the City Corporation Counsel's office, based on existing legal precedent, that the Appellate Court will sustain the City's position. In the event, however, the Appellate decision is adverse to the City, said decision will have no effect on the dismissal of the money damage claims.

In the opinion of the Corporation Counsel of the City of Chicago and Bond Counsel to the Underwriters, this suit and its ultimate determination will not effect the validity of the bonds or the obligations of the Airlines under the various leases and Airport Use Agreement.

Exhibit F - Details of Application of Proceeds of Revenue Bonds for the Year ended December 31, 1971 -60-

Schedule A-1 - Notes to Financial Statements -61-

Schedule B-1 - Comparative Statement of Revenues for Years ended December 31, 1971 and 1970 -65-

Schedule B-2 - Comparative Summary of Flight Fees for the Years ended December 31, 1971 and 1970 -66-

Result of Operations:

Under the terms of the Airport Agreement with the airline parties net income for the calendar year as defined in the Revenue Bond Ordinance must be deferred and applied to reduce flight fees charged to the airlines during the next succeeding years. Any loss on operations must be charged to the airlines after the close of the calendar year and paid by them promptly.

The amount of the deferred income at December 31, 1971 to be carried forward to reduce flight fees of the succeeding years resulted from the following:

Revenues were less than amounts estimated by the Airport consultants		($1,231,876)
Expenses were less than estimated		1,108,530
Deferred flight fees carried forward from 1970		
Total fees	$ 261,677	
Add - deferred charge applied to increase flight fees for the year 1971	3,298,323	3,560,000
Balance representing deferred flight fees carried forward to reduce flight fees in 1972		$3,436,654

In arriving at the amount available for reduction of flight fees in 1972, provision must be made for expenditures budgeted in 1971 and prior for which contracts or purchase orders were issued prior to December 31, 1971, $3,550,000, but delivery of equipment and materials was not received to that date. Invoices covering these items will be expensed in the year 1972 when delivery of the equipment and materials is received. When major expenditures are budgeted in a particular year, but are not delivered by the year end, the items are not again included in the budget for the following year; hence the estimated amounts are carried in the balance sheet at December 31 as a deferred charge to future operations, offset by a reserve of like amount for expenditures budgeted but not incurred at the year end.

The amount available as a deferred credit against operations in determining flight fees for the last six months of 1971 is determined as follows:

Total deferred credit, December 31, 1971	$3,436,654
Less - deferred charges carried forward, December 31, 1971	3,550,000
Difference applicable to increase in flight fees for the last six months of 1971	($ 113,346)

A summary of operations for the year ended December 31, 1971, compared with operations for the similar period ended December 31, 1970, is set forth below:

Amount called or purchased and retired ($5,834,000 in 1971)	35,826,000
Amount outstanding	188,174,000

The unexpended proceeds from Revenue Bond issues amounted to $22,201,604 at December 31, 1971.

Operating revenues from flight fees, rentals, concessions, and other sources (accounted for collectively through the Revenue Fund) are restricted by the Bond Ordinance as to their use for the purposes enumerated in Note B5. For each specified purpose, a separate account is provided within the Revenue Fund.

The financial statements include amounts in respect of Airport facilities paid for by the City, State and Federal Governments, and private parties (totaling approximately $79,100,000 at cost, less allowances for depreciation of approximately $16,400,000 at December 31, 1971), as well as those acquired with proceeds of the Revenue Bonds.

Note B - Accounting Policies:

1. United States Government Securities:

The aggregate market value of the securities at December 31, 1971 was approximately $1,297,000 in excess of cost; however, approximately $685,000 of this amount represents the increase in market value from date of purchase to December 31, 1971 of United States Treasury bills, which have no stated interest rates. Accrued interest is included only on those securities having stated interest rates; discounts and premiums are recognized at time of maturity or disposition.

2. Accounts Receivable:

The Bond Ordinance requires that provision be made for all uncollectible accounts receivable, which are defined as all accounts receivable not collected within 30 days after due date. Accordingly, as of December 31, 1971, an allowance was established for such accounts totaling $495,176, of which approximately $374,000 was subsequently collected through April 15, 1972.

SCHEDULE A-1

Note B - Accounting Policies (Continued)

3. Property and Equipment:

The costs of earthwork and landscaping have been charged to the land account. Interest is capitalized from the commencement of work through the year of completion on land improvements provided through the use of City money.

All replacements of vehicles, furnishings, signs and other equipment are expensed during the year of acquisition in accordance with the terms of the Ordinance.

Grants from State and Federal Governments are recognized only as received. As of December 31, 1971, a maximum of $7,900,000 may be realized in future periods from such grants.

Depreciation is provided in respect of facilities other than land on a straight-line basis, using annual rates calculated to amortize the cost of the individual assets over their estimated useful lives commencing in the year following the year of acquisition or completion of construction.

Under the terms of the Ordinance, only depreciation and amortization applicable to facilities acquired with City money are taken into account in establishing flight fee revenue requirements.

4. Interest on City's Investment in Airport Property:

The ordinance provides that "Airport expenses," for the purpose of computing flight fees collectible from the airlines, shall take into account interest on money of the City invested in property and equipment and deferred engineering costs. (See Note B5f).

5. Allocation of Operating Revenues:

The Ordinance requires the allocation of revenues for specified purposes in the following order of priority:

a. Ordinary costs of operation and maintenance, but not in excess of the amount budgeted by the City for such purposes.

b. Amounts equal to interest on bonds outstanding. During 1971, interest of $10,164,921 was paid.

c. The debt service reserve must be maintained at an amount equal to two years' interest requirements.

The debt service reserve for Revenue Bonds issued prior to the Series of 1967 was fully funded in a prior year. In respect to these bonds for which the debt service reserve requirement was fully funded, bonds in the principal amount of $5,136,000 were purchased and retired during 1971; accordingly, the applicable interest requirement for 1971 ($486,440) was transferred to the sinking fund.

SCHEDULE A-1

5. Allocation of Operating Revenues: (Continued)

c. (Cont'd.)

During the year, allocations of $76,250, $293,250, and $1,859,462 were made to the debt service reserve applicable to the Revenue Bonds, Series of 1967, Series of 1968 and Series of March,1970, respectively. These amounts ($2,228,962) are to be allocated to the debt service reserve annually until an amount equal to two years' interest requirements for the aforementioned three Series of Revenue Bonds is accumulated.

d. For the sinking fund, a minimum payment ranging from $2,827,000 for 1971 to $13,945,000 in 1998. Additional amounts are allocable to the sinking fund as explained in Note B5c ($486,440 for 1971) and Note B5h ($3,146,601 for 1971). The total amount added to the sinking fund from all sources during 1971 was $6,460,041.

e. For reserve maintenance, $1,120,000 annually until $4,666,666 is accumulated. Major repairs, renewals, and replacements may be paid for with these funds. During 1971, expenditures for these purposes totaling $198,462 were made from the account. In addition, an amount of $315,543 was credited to the reserve maintenance account representing a reimbursement of prior years' expenditures through a grant-in-aid from the Federal Government.

f. For emergency reserve, amounts (total for 1971 - $986,324) equal to the annual provisions for (a) depreciation and amortization on assets acquired with City money (for 1971- $270,914) and (b) interest on City money invested in Airport assets (for 1971 - $715,410). These funds may be used to abate landing fees in the event the Airport is closed.

g. To the extent that revenues for the year as defined in the Ordinance, including deferred income from the preceding year, exceed "Airport expense" as defined, the excess shall be deferred income and considered as revenues of the next succeeding year. In accordance with this provision, revenues of $3,436,654 for the year ended December 31, 1971 have been so deferred in the Revenue Fund, to be carried over to reduce flight fee requirements for 1972.

h. Any remaining revenues after making the aforementioned allocations are to be allocated to the sinking fund ($3,146,601 for 1971).

Note C - Revenue Bond Retirement:

Money in the sinking fund account is to be applied as rapidly as practicable to the retirement of bonds, by call, purchase in the open market, or tender.

SCHEDULE A-1

Note C - Revenue Bond Retirement (Continued):

Bonds may be redeemed by call, from funds provided by Airport Revenues, at prices ranging downward from 105% of principal amount to par value, plus accrued interest, to December 31, 1989; and, thereafter, at par value plus accrued interest. Bonds also may be redeemed by purchase in the open market or tender at prices not in excess of call prices.

From various dates commencing January 1, 1974 (varying with the terms of the individual bond issues) to December 31, 1989, the total bonds outstanding of any issue may also be redeemed from resources other than Airport revenues at maximum prices of 2% of principal amount in excess of the aforementioned call prices; and thereafter, at par value, plus accrued interest.

Through December 31, 1971, bonds in the principal amount of $35,826,000 ($5,834,000 in 1971) have been purchased at a cost (exclusive of bond premium) of $32,690,317 ($5,109,662 in 1971), and retired, with funds provided by the sinking fund. Premiums in the amount of $388,995 (none in 1971) have been paid on bonds purchased and retired. Such premiums were charged to Airport operations in the year of payment.

Note D - Use of Operating Revenues:

The Bond Ordinance does not permit the use of operating revenues for capital improvements or other expenditures not directly related to the operation of the Airport; however, the Airline Representative has agreed to all such capital improvement expenditures, which have the effect of increasing flight fee requirements.

Note E - Commitments and Contingent Liabilities:

Work to be performed under uncompleted contracts in force for Airport facilities to be financed by Revenue Bond money aggregated approximately $16,000,000 at December 31, 1971.

Certain contractors who were engaged in Airport construction under the Revenue Bond program have presented claims or filed suit for approximately $235,000 in excess of the contract amounts, for which the City of Chicago refused payment. No amounts have been recorded in the financial statements for any additional payments which may arise from these claims or suits.

(3) A certificate by the Corporation Counsel of the City, dated as of the date of closing, to the effect that after due and diligent inquiry no litigation is pending and to the best of his knowledge and belief none is seriously threatened in any court (a) restraining or enjoining the issuance or delivery of any of the Bonds or the collections of Revenues pledged or to be pledged to pay the principal of and interest on the Bonds, or restraining or enjoining the Depositary in the performance of the duties and obligations imposed upon it as Depositary, Paying Agent and Registration Agent, (b) in any way contesting or affecting the validity of the Bonds, of the Ordinances, or any Ordinance supplemen-

tal thereto, of this Purchase Contract, of the Leases and Agreements referred to in paragraph 2 hereof, or the collection of such revenues or the pledge thereof, or (c) contesting the corporate existence or the powers of the City or the authorization for the issuance of the Bonds, the adoption of the Ordinances, or any Ordinances supplemental thereto, or the appointment of the Depositary, which certificate shall be in the form and substance acceptable to the Underwriter.

In case any of the conditions specified in this paragraph 7 shall not have been fulfilled, as herein provided, the Underwriter may terminate this Purchase Contract upon notice to the City.

8. The Underwriter shall be under no obligation to pay expenses incident to the performance of the City's obligations hereunder including, but not limited to, fees of the City payable to Architects, Engineers, the Airport Consultant, Chapman and Cutler, except for expenses incurred in registering the issue under Blue Sky Laws, or of any other consultant not retained directly by the Underwriter, or disbursements made by them on behalf of the City, or the cost of preparation, execution or delivery of the Bonds, copies of the proposed official statement, the Ordinances and any ordinance supplemental thereto, the Engineering Report, the Airport Consultant Certificate, the Traffic and Earnings Report, or any exhibits. The Underwriter will pay all expenses incurred by them in connection with their offering or distribution of the Bonds.

To the City Council of the
City of Chicago, Illinois

In accordance with the requirements of Section 2.16 of the Chicago-O'Hare International Airport Revenue Bond Ordinance, we have reviewed the computations of amounts required to be credited to the Interest Account, Debt Service Reserve Account, Sinking Fund Account, Reserve Maintenance Account, and Emergency Reserve Account for the period from January 1, 1972 to August 30, 1972. (The date of adoption by the City Council of the City of Chicago, Illinois of the Supplemental Ordinance authorizing the issuance of $8,000,000 principal amount of Chicago-O'Hare International Airport Revenue Bonds, Series of 1972 and approving the sale thereof.)

Our procedures included reading the pertinent provisions of the Chicago-O'Hare International Airport Revenue Bond Ordinance, testing the computations of amounts required to be credited to the aforementioned accounts, and confirming with The First National Bank of Chicago that the credits required to be made to these accounts through August 30, 1972 had been made.

In our opinion, the amounts required to be credited to the aforementioned accounts for the period from January 1, 1972 to August 30, 1972 have been properly credited to such accounts in accordance with the applicable provisions of the Bond Ordinance.
